The Great Literacy Debate Andrew Goodwyn, Carol Fuller, 2012-03-29 The nature of literacy is an issue of global debate When the National Literacy Strategy NLS was introduced into UK schools it was arguably the most ambitious educational reform programme in the world and the controversy necessarily intensified How can the impact of such reforms be assessed In its ten year history the NLS affected every primary and secondary teacher in the country and therefore every child The initiative provoked a widespread recognition of the importance of literacy for all children and attracted the attention of many other governments This book is the first definitive and objective review and evaluation of the impact of these literacy reforms With contributions from the most respected experts on literacy and English from the UK and from across the world this unprecedented critical examination explores How teaching policy and practice were impacted by the reforms How the NLS came into being how it was operated what it did and did not achieve What we can learn from its successes and failures The most important aspects of the reforms from policing grammar to the impact of The Literacy Game and informed prescription on teaching Whether you are a policy maker or classroom teacher this book is an invaluable resource to anyone concerned about literacy It provides readers from around the world with a genuine and evidence based perspective on this immense initiative lucidly evaluating the lessons learned from both its ambitions and its failures

Testing and Assessment Great Britain. Parliament. House of Commons. Children, Schools and Families Committee, 2008 Testing and Assessment Third report of session 2007 08 Vol 2 Oral and written Evidence *The Sutherland Inquiry* Stewart R. Sutherland, Great Britain. Department for Children, Schools and Families, 2008 The Sutherland Inquiry HCP 62 session 2008 09 ISBN 9780102958393 is an independent inquiry remitted by the Office of the Qualifications and Examinations Regulator Ofqual and the Secretary of State for Children Schools and Families into the delivery of the National Curriculum tests in 2008 In July 2008 1 2 million pupils heard that their National Curriculum test results would be delayed The test delivery service represented a failure in customer delivery service to the pupils schools and also the markers upon whom the National Curriculum testing regime relies The primary responsibility must therefore rest with the American organisation ETS Global BV ETS which won the public contract to deliver the tests and failed its customers This report examines how this organisation secured the contract what its plans were and why its systems and process as a whole were not properly tested The report will also describe how ETS's systems failed during the test delivery process There was also a

failure on the part of the Government's Non Departmental Public Body the Qualifications and Curriculum Authority to deliver its remit The report also sets out the procurement process that QCA used to select its delivery supplier ETS and how it managed the contract The report sets out a number of recommendations on how test delivery can improve in future years and has set out a number of key priorities including that the delivery process of the National Curriculum tests should be modernised and improved in consultation with the marking community including piloting online marking that whatever process is used should be thoroughly piloted and project managed to ensure schools and pupils get their results on time that the customer service provided to markers must be vastly improved to ensure that they are properly supported and are able to access up to date information
