

PRAYER FOR GRADUATES

LET ME BE A BLESSING

Thank You, Lord, for Your guidance and grace through my years on campus. I'm thankful to You for taking care of me in school. I'm thankful that

I've been able to complete my course successfully. I'm thankful that today, I'm a graduate. Thank You so much, Lord. Thank You for Your protection for all my days on campus.

I pray for more protection as I approach the world as a graduate. Please teach me to number my days and protect me in all my ways. I pray that You please continue blessing me with good health both physically and mentally. Take away any ailments and weakness from me Lord. As I approach the world today, I pray for You to lead me on this journey. Lord, order my steps and make everything work out for my good. Let me be a blessing to everyone that I encounter. Let me be a blessing to the world in Jesus' name,

Amen

Snow, 2018 The late twentieth and early twenty first centuries have seen a renaissance in the study of virtue a topic that has prevailed in philosophical work since the time of Aristotle Several major developments have conspired to mark this new age Foremost among them some argue is the birth of virtue ethics an approach to ethics that focuses on virtue in place of consequentialism the view that normative properties depend only on consequences or deontology the study of what we have a moral duty to do The emergence of new virtue theories also marks this new wave of work on virtue Put simply these are theories about what virtue is and they include Kantian and utilitarian virtue theories Concurrently virtue ethics is being applied to other fields where it hasn't been used before including bioethics and education In addition to these developments the study of virtue in epistemological theories has become increasingly widespread to the point that it has spawned a subfield known as virtue epistemology This volume therefore provides a representative overview of philosophical work on virtue It is divided into seven parts conceptualizations of virtue historical and religious accounts contemporary virtue ethics and theories of virtue central concepts and issues critical examinations applied virtue ethics and virtue epistemology Forty two chapters by distinguished scholars offer insights and directions for further research In addition to philosophy authors also deal with virtues in non western philosophical traditions religion and psychological perspectives on virtue To Repair the World Paul Farmer, 2019-11-19 Doctor and

social activist Paul Farmer shares a collection of charismatic short speeches that aims to inspire the next generation. One of the most passionate and influential voices for global health equity and social justice, Farmer encourages young people to tackle the greatest challenges of our times. Engaging, often humorous, and always inspiring, these speeches bring to light the brilliance and force of Farmer's vision in a single accessible volume. A must read for graduates, students, and everyone seeking to help bend the arc of history toward justice. *To Repair the World* challenges readers to counter failures of imagination that keep billions of people without access to health care, safe drinking water, decent schools, and other basic human rights. Champions the power of partnership against global poverty, climate change, and other pressing problems, today overturns common assumptions about health disparities around the globe by considering the large-scale social forces that determine who gets sick and who has access to health care. Discusses how hope, solidarity, faith, and hardbitten analysis have animated Farmer's service to the poor in Haiti, Peru, Rwanda, Russia, and elsewhere. Leaves the reader with an uplifting vision that with creativity, passion, teamwork, and determination, the next generations can make the world a safer and more humane place.
