Challenging Boundaries in Language Education Achilleas Kostoulas, 2019-06-08 This edited collection challenges the perceptions of disciplinary linguistic geographical and ideological borders that run across language education. By highlighting commonalities and tracing connections between diverse sub fields that have traditionally been studied separately the book shows how the perspectives of practitioners and researchers working in diverse areas of language education can mutually inform each other. It consists of three thematic parts. Part I outlines the field of language education and challenges its definition by highlighting additional theoretical constructs that have tended to be viewed as separate from language education. Part II investigates curricular boundaries showing how the language learning curriculum can be enriched by connections with other curricular areas. Lastly Part III looks into the challenges and opportunities associated with language education against the backdrop of globalisation.

Dueling Discourses Laura Felton Rosulek, 2015 Dueling Discourses offers qualitative and quantitative analyses of the linguistic and discursive forms utilized by opposing lawyers in their closing arguments during criminal trials Laura Felton Rosulek analyzes how these arguments construct contrasting representations of the same realities applying the insights and methodologies of critical discourse analysis and systemic functional linguistics to a corpus of arguments from seventeen trials Her analysis suggests that silencing omitting relevant information de-emphasizing giving information comparatively less attention and focus and emphasizing giving information comparatively more attention and focus are the key communicative devices that lawyers rely on to create their summations Through these processes lawyers lexical syntactic thematic and discursive patterns both within individual narratives and across whole arguments function together to create versions of reality that reflect each individual lawyer's goals and biases The first detailed analysis of

closing arguments this book will significantly improve our understanding of courtroom discourse Furthermore as previous research on all genres of discourse has examined exclusion inclusion and de emphasis emphasis as separate issues rather than as steps on a continuum this book will advance the field of discourse analysis by establishing the ubiquity of these phenomena **Quick Start Reference for MicroStrategy 10** MicroStrategy Product Manuals,2015-06-04
