Solutions overview

Applies to Dynamics 365 (online), version 9.x

Solutions exist so that a set of customizations can be purchased, shared from one organization to another. You can get solutions from [AppSource](#) software vendor (ISV). A Dynamics 365 solution is a file that you can import into customizations.

More information: [Whitepaper: Patterns and Principles for Solution Builders](#)

Note

If you're an ISV creating a customization that you will distribute, you must create a solution. For more information about using solutions, see [Package and distribute solutions](#).

If you are just interested in customizing your organization, here is what you need to know about solutions:

- Creating solutions is optional. You can customize your Dynamics 365 system without ever creating a solution.
- When you customize the Dynamics 365 system directly, you work with a solution called the **Default Solution**. This solution contains all the common customizations.

Prof (Dr.) Raj Kumar Singh & Dr. Bhavana Singh,2023-04-04 Economic growth involves sustained and equitable gains in per capita income as well as structural shifts in an economy s product mix towards better value added commodities and more effective manufacturing processes Entrepreneurs can promote the reallocation of resources from less productive to more productive uses which will help the economy grow Entrepreneurs frequently act as innovators introducing novel products and technologies to the market developing fresh products methods and concepts as

well as commercializing new information. But it's a common misconception that innovation by businesspeople has less of an impact on growth in low income developing nations than it does in more developed ones. This book's goal is to offer fresh viewpoints on three issues related to innovation and entrepreneurship in developing nations: What effect does innovation have on growth? This book is an edited book where authors have contributed their original research papers.
