**Environmental and Sustainability Education (ESE) in the English-Speaking Caribbean** Therese Ferguson, Sharon Bramwell-Lalor, 2024-12-09. This book offers readers a diversity of perspectives, experiences, and practical examples from various facets of Environmental and Sustainability Education (ESE) that can propel practice, further research, and inform decision making in the region, thus making for more cogent and effective ESE. The Caribbean region is comprised of what is said to be the largest number of Small Island Developing States (SIDS) together with the non-island nations of Belize, Guyana, and Suriname. Although diverse with respect to governance, size, topography, and income, the Caribbean region has a common set of geographic and socio-economic characteristics that make it vulnerable to environmental hazards, economic challenges, and social instability. Further to these particular vulnerabilities are various phenomena that pose critical sustainability challenges, two of which are climate change and crime and violence. Consequently, responsive and relevant ESE is needed to address these issues through knowledge enhancement, attitudinal change, skills development, and behaviour change. As we seek solutions, this text brings together various empirical and theoretical contributions focused primarily on the English-speaking Caribbean region that explore a number of areas such as ESE pedagogy, teacher education, values education, and progress evaluation. This volume will be a key resource for educators, policymakers, scholars, and advanced students of ESE, as well as those interested in protecting our planet. It was originally published as a special issue of Environmental Education Research.
