Word Problems Involving Quadratic Equations

- ① If one side of a square is increased by 10 m and another side is increased by 5 m, a rectangle is formed with an area that measures three times the area of the square. Find the length of the side of the square.

- ② Find two consecutive odd integers whose product is 675.

- ③ The sum of the ages of a father and his son is 42 years. The product of their ages is 185. Find their ages.

- ④ The length of a room is 8 cm greater than its width. If both the length and the width are increased by 2 cm, the area increases by 60 cm^2 . Find the old and new dimensions of the room. Also, find the difference in their dimensions.

- ⑤ Write a quadratic equation in the form $ax^2 + bx + c = 0$, whose two roots are 2 and 5.

Elton, William A. Lucas, David W. Conrath, 2012-12-06 This book contains the proceedings of the first international symposium devoted to research on the evaluation and planning of new person to person telecommunication systems It was sponsored by NATO's Special Programme Panel on Systems Science and took place in September 1977 at the University of Bergamo in the north of Italy Telecommunication systems which provide for communication between people rather than computers or other instruments are of two kinds There are mass communication systems broadcast radio and television and interpersonal systems for example the telephone and Telex which join together individuals or small groups Here we have included in the interpersonal category certain systems for retrieving information from computers essentially those systems in which the role of the computer is primarily to act as a store and to identify that information which best fits a user's request This excludes management information systems in which the computer performs important transformation functions Distinctions between interpersonal and mass communication systems and between these two and data communication systems are increasingly breaking down for those who provide the services In the U K broadcasters are piloting information retrieval services and the British Post Office is competing with a more sophisticated system which could also be used for the exchange of messages Elsewhere computer data networks are increasingly employed for the exchange of personal messages **GED® MATH PRACTICE** Kamrouz Berenji, GED Math Practice Dominate the GED Math Exam with Confidence Are you ready to pass the GED math test and unlock new opportunities GED Math Practice Build Confidence Master Concepts and Succeed is the ultimate guide to helping you achieve a high score on the GED Math exam Whether you're just starting or looking to refine

Knowledge Spaces Jean-Claude Falmagne,Dietrich Albert,Christopher Doble,David Eppstein,Xiangen Hu,2013-06-20 The book describes up to date applications and relevant theoretical results These applications come from various places but the most important one numerically speaking is the internet based educational system ALEKS The ALEKS system is bilingual English Spanish and covers all of mathematics from third grade to the end of high school and chemistry It is also widely used in higher education because US students are often poorly prepared when they reach the university level The chapter by Taagepera and Arasasingham deals with the application of knowledge spaces independent of ALEKS to the teaching of college chemistry The four chapters by Albert and his collaborators strive to give cognitive interpretations to the combinatoric structures obtained and used by the ALEKS system The contribution by Eppstein is technical and develops means of searching the knowledge structure efficiently
