H3500 ULTRA - HARMONIZER DFX

Eventide's H3500 Dynamic Ultra-Harmonizer® Effects Processor – The Most Flexible, Best Sounding Device Of Its Type, And The Best Value As Well.

At first the Eventide H3500 Ultra-Harmonizer was revolutionary. Now, it's become an essential audio production tool in recording studios, post suites and broadcast facilities around the world. The 24 algorithms, sampling and over 404 factory presets, plus superb pitch shifting, dense reverbs, dynamic effects and lush delays have extended the H3500 Dynamic Ultra-Harmonizer's capacity to excite and inspire.

DFX Dynamic Effects — A New Dimension

The H3500's 24 effects algorithms include pitch shifting, reverbs, choruses and delays that have set industry standards. Each of two Mod Factory DFX algorithms includes a full set of independent processing modules. Both include an LFO section designed for smooth autopanning, filter sweeps, etc. The modules can be patched together in any combination, using Mod Factory's object-oriented effects programming software. Factory presets range from "ducked" delays to touch-sensitive choruses, flanges and reverbs that respond instantly to audio input level.

Full Sampling Capabilities

The H3500 gives you all the power of Ultra-Sampling with an internal sampling board and advanced sampling software. Memory options let you specify either 23.8 seconds mono (11.7 seconds stereo) or 95 seconds mono (47.5 seconds stereo) sampling time. Eventide's world-renowned pitch change technology gives you versatility. Use the H3500 as an ordinary sampler, or combine it with other functions (like the MIDI pitch wheel) for creativity no other sampler can match.

Powerful Pitch Shifting

Like its predecessors, the H3500 is the industry benchmark for glitch-free, full-bandwidth pitch shifting. The Dynamic Ultra-Harmonizer includes two full-function pitch change channels that can operate in phase-locked Stereo, Dual, Layered, Reverse or Multi modes. The H3500 will build virtually any kind of multi-layered stereo texture you can dream up—along with many you may never have imagined.

Diatonic Pitch Shifting — An Eventide Innovation

The H3500's Diatonic Pitch Shift is designed to unleash your creativity. This uniquely intelligent effect automatically turns any note into a correctly harmonized triad. If the score isn't perfectly in tune, you can still get perfect harmony: Just use the Quantize function to correct the output to the nearest even-tempered pitch. If standard 19th Century harmony isn't your bag, create your own custom-mappings with User-Defined Scales.

Stunning Ambience, Reverbs and Effects

The H3500 Ultra-Harmonizer gives you everything from smooth spaces and subtle ambience to funky percussive gates and unique pitch-shifted reverbs. All of them have the character and clarity that have made Ultra-Harmonizer reverb a first choice in studios and post suites worldwide.

Create rich, resonant spaces with the H3500's Reverb Factory, Swept Reverb and Dense Reverb algorithms. Or explore the many moods of unique algorithms like Instant Phasor, MultiBand Delays, Swept Combs, Ultra-Top Long Digiplex® and Dual Digiplex.

Eventide H3000 Manual
