J. Briggs, 2002-03-29 A decade ago New American Schools NAS launched an ambitious effort for whole school reform to address the perceived lagging achievement of American students and the lackluster school reform attempts that have produced so few meaningful changes As a private nonprofit organization NAS set out to help schools and districts significantly raise the achievement of large numbers of students by offering whole school designs and design based assistance during the implementation process NAS is currently in the scale up phase of its effort and its designs are being widely diffused to schools across the nation During the 1997\_1998 and 1998\_1999 school years RAND

assessed the effects of NAS designs on classroom practice and student achievement in a sample of schools in a high poverty district RAND found that high poverty schools often have fragmented and conflicting environments with difficult and changing political currents and entrenched unions Teachers in high poverty schools tend to face new accountability systems and fluctuating reform agendas These teachers generally lack sufficient time for implementing reform efforts often becoming demoralized and losing their enthusiasm for the difficult task of improving student performance under difficult conditions RAND concluded that high stakes tests may motivate schools to increase performance and to seek out new curricula and instructional strategies associated with comprehensive school reforms However those same tests may provide disincentives to adopt richer more in depth curricula that can succeed in improving the learning opportunities of all students particularly those in high poverty settings

Hands Down, Speak Out Kassia Omohundro Wedekind, Christy Hermann Thompson, 2023-10-10 Math coach Kassia Omohundro Wedekind and literacy coach Christy Hermann Thompson have spent years comparing notes on how to build effective classroom communities across the content areas How they wondered can we lay the groundwork for classroom conversations that are less teacher directed and more conducive to student to student dialogue Their answers start with Hands Down Conversations an innovative discourse structure in which students' ideas and voices take the lead while teachers focus on listening and facilitating In addition to classroom stories and examples Christy and Kassia provide 28 micro lessons designed to help K-5 students develop and exercise their speaking and listening muscles Inside Hands Down Speak Out you'll learn how to Build talk communities that are accessible to everyone especially those whose voices are often traditionally left out of classroom discourse Analyze classroom conversations in order to plan next steps for developing the classroom talk community Plan and facilitate three types of conversations across literacy and math Christy and Kassia believe that the development of dialogue skills is worth the investment of time not only because it has the power to deepen our understanding of literacy and mathematics but also to deepen our understanding of ourselves our communities and the world

**Elementary Mathematics Curriculum Materials** Janine T. Remillard, Ok-Kyeong Kim, 2020-03-16 The book presents comparative analyses of five elementary mathematics curriculum programs used in the U.S. from three different perspectives the mathematical emphasis the pedagogical approaches and how authors communicate with teachers These perspectives comprise a framework for examining what curriculum materials are comprised of what is involved in reading and interpreting them and how curriculum authors can and do support teachers in this process Although

the focus of the analysis is 5 programs used at a particular point in time this framework extends beyond these specific programs and illuminates the complexity of curriculum materials and their role in teaching in general Our analysis of the mathematical emphasis considers how the mathematics content is presented in each program in terms of sequencing the nature of mathematical tasks cognitive demand and ongoing practice and the way representations are used Our analysis of the pedagogical approach examines explicit and implicit messages about how students should interact with mathematics one another the teacher and the textbook around these mathematical ideas as well as the role of the teacher In order to examine how curriculum authors support teachers we analyze how they communicate with teachers and what they communicate about including the underlying mathematics noticing student thinking and rationale for design elements The volume includes a chapter on curriculum design decisions based on interviews with curriculum authors

*Leadership Lessons from Comprehensive School Reforms* Joseph Murphy, Amanda Datnow, 2003 Leadership Lessons From Comprehensive School Reform addresses a topic that has received far too little attention in the comprehensive school reform movement the role of school and district leaders in the reform process This volume shows how much we've learned about how leaders shape comprehensive reform and how the reform process must shape leadership Robert Slavin Co Director Center for Research on the Education of Students Placed at Risk Johns Hopkins University This volume provides the most thorough balanced and informative source available on comprehensive school reform In addition to insights regarding implementation of many of the most prominent CSR models the book is a primer on distributed leadership providing perspectives on the interplay of principals teacher leaders central office administrators and model developers engaged in school and district reform James Lytle Superintendent Trenton New Jersey Public Schools This book offers well grounded insights about the leadership practices of educators involved in the implementation of Comprehensive School Reform models Leaders and leadership scholars will find it a rewarding read I recommend it highly Kenneth Leithwood Ontario Institute for Studies in Education Ontario Canada Discover what we've learned about educational leadership from comprehensive school reforms models straight from the experts and insiders Comprehensive School Reform CSR is proving to be one of the most promising avenues for improving student achievement The authors have found that leadership is frequently acknowledged to be a prime factor in the successful implementation of comprehensive school reform Murphy and Datnow have gathered together a group of CSR insiders and researchers to examine the issue of leadership in CSR for the first time Contributors and CSR models include Expeditionary Learning Schools Modern Red Schoolhouse Co Nect Success for All New American Schools Chicago Annenberg Challenge Bay Area School Reform Collaborative Accelerated Schools Coalition of Essential Schools Comer School Development Process
