

The signal phrase is an essential part of the set-up for both direct quotations and paraphrased citations.

- Secondments legal correspondence Jim Rogers, the bear on gun ownership, have specific and necessary limits.
- Experts in the field have stated that these limits "are often misleading for debate and controversy" (Waters).

The signal phrase should (1) let the reader know that you are about to cite from an outside source and (2) briefly indicate the name or nature of the source.

Conventions:

- If you don't mention the author's last name in the signal phrase, you should include it in parentheses at the end of the sentence.
- For clarity, some sources might include the article title in parentheses at the end of the sentence instead of in the signal phrase.
- Do not repeat information. If you include the author's name in the article title in the signal phrase, do not repeat this information in parentheses at the end of the citation.

Example Signal Phrases:

- Analyzing recent research, Jane Doe claims....
- In "Blister, Water Everywhere," Dr. Philip Rivers points out....
- Writing for *The Atlantic*, Steve Daniels argues....
- Climate Change experts suggest that....
- A recent article in *The New York Times* reports....

Exercise: Create an appropriate signal phrase to fill in the blank for each item. All necessary information is provided below each item.
