Church History: The first advance, AD

29-500 John Foster,1972 John Foster s lively studies in Church History are well known to readers in many countries The First Advance fifth title in the TEF study Guide series is Book 1 of a three part account of the Church s expansion from Jerusalem to the end of the earth The main emphasis is on people rather than policies or polemics with vivid descriptions of Christians in the first five centuries persevering under persecution and carrying their faith east and south into Asia and Africa as well as westward into Europe Planned as a classroom text with study questions and discussion topics maps charts and suggestions for further reading the book also contains substantial verbatim quotations from original sources It will thus be specially useful for theological students working alone or without access to a library while its lucid style and straightforward language will be acceptable to the general reader This second volume follows the same lines as the first tracing the rise and fall of the Church s fortunes through the thousand years of uncertainty from the time when barbarian and Arab invasions toppled the power of Rome to Christendom s loss of Constantinople and the subsequent opening of a new age of discovery and learning Again the main emphasis is on people popes and potentates monks and missionaries and on the ideas and ambitions motivating the medieval Church in its efforts to establish Augustine s Holy city on earth As before copious quotations from original sources as well as detailed maps charts and photographs of contemporary Christian life support the study questions and discussion topics which are a feature of the series as a whole Publisher
