1. Move the cursor over each planet to learn its name. What are the four inner planets?

Mercury, Venus, Earth, and Mars.

These planets are called **rocky planets** because their surfaces are rocky.

2. Click the “–” button (upper right) three times to zoom out. What are the names of the four outer planets?

Jupiter, Saturn, Uranus, and Neptun.

These planets are called **gas giants** because they are essentially huge balls of gas.

3. Before 2006, while Pluto was still considered a planet, people used this saying to remember the nine planet names: “My very excellent mother just sent us nine pizzas.”

Come up with a new sentence to help remember the eight planet names, in order.
