wrote 13 chapters which teach you everything about adding reports to ASP NET and Windows applications It starts with the basics of building reports to adding charts crosstab reports sorting and grouping subreports and using the formula editor with Basic syntax and Crystal syntax The second type of programmer has been using Crystal Reports for years and is mostly concerned with how to do technical runtime customization of reports For this programmer I researched and diagrammed the undocumented report object models I included dozens of examples in both VB NET and C to show you how to modify reports manipulate different data sources XML ADO NET ODBC OLE DB stored procedures with parameters modify formulas and report parameters and integrate NET with the RAS and RDC The dozens of emails I received when the book was online were instrumental for doing a major revision of many chapters before publishing the book in hardcopy format Since releasing the book I continue to receive more emails from people They regret that the free book isn t online anymore but understand that it couldn t last forever and that the hardcopy version is even better I hope you like it and that it helps you achieve your reporting goals September 2004 Update Due to high demand I did a second printing of the book I took advantage of this opportunity to go through the book and remove all grammatical errors The content is the same but the typos have been corrected **Crystal Reports XI: The Complete Reference** George Peck,2005-11-09 This best seller has been fully updated for Crystal Reports XI extreme insight the first jointly developed release of this leading report writing and analysis software since the acquisition of Crystal Decisions by Business Objects Readers will learn to create visually appealing reports that communicate content effectively using helpful features such as charts complex formulas custom functions sorting and grouping Business Views and more Publishing and viewing reports on the Web is also explained in detail NEW coverage includes All the new user interface elements New Dynamic Cascading Parameter Fields and Using Crystal Reports with Business Objects Enterprise XI **The Black Sheep** Brian Duffy,2006-10 In his family s eyes Layne Marks has always been a failure The undesirable sheep living in his more prosperous brother s shadow He still struggles to maintain a steady employment or place to live at the age of 26 Anywhere else in the world just another common person but not in Eumain Imperfection is no longer tolerated in Eumain Both a bank robber and a homeless person will suffer the same punishment in this situation they will both be labelled Rejects and taken away never to be seen again The residents have no way of knowing what will happen to them According to a persistent rumour the Rejects have been exiled to a remote long forgotten place because they are unfit to live anywhere else just like themselves There all of the criminals of all degrees must rely on one another in order to survive in this harsh and perilous environment that is home to a variety of previously unheard of monsters Layne Marks has always been warned that he was close to becoming deemed unfit to reside in Eumain and that it was only a matter of time Sams Teach Yourself Crystal Reports 9 in 24 Hours Joe Estes,2002 This book is a complete reference for using and developing with Crystal Reports and teaches all of the basics as well as teach how to integrate Crystal Reports with key development languages and the use of web reporting It gives readers a complete reference book that has been
