School library media specialists will find this concepts based approach to teaching electronic literacy an indispensable basic tool for instructing students and teachers. It provides step by step instruction on how to find and evaluate needed information from electronic databases and the Internet, how to formulate successful electronic search strategies and retrieve relevant results, and how to interpret and critically analyze search results. The chapters contain a suggested lesson plan and sample assignments for the school library media specialist to use in teaching electronic literacy skills to students and teachers. Dr. Kathleen W. Craver, a nationally recognized specialist in technology in the library media center, identifies the universal concepts of electronic literacy and provides the library media specialist with the rationales, background, methods, and model assignments to teach students and faculty to become proficient and critical users of electronic information technologies. At the beginning of each chapter, Craver furnishes a rationale for change that school library media specialists can use to justify these essential modifications to their teaching curriculum. Chapters include: The Structure of Electronic Information, The Common Vocabulary and Characteristics of Electronic Resources, Formulating Electronic Search Strategies, The Physical Arrangement of Information, Choosing Appropriate On Site and Remote Electronic Libraries, Choosing Appropriate Electronic Databases, Internet Search Tools and Techniques, Identifying Electronic Resources On Site, Electronic Records Access Using Primary Electronic Resources, and Evaluating Electronic Sources. The Appendix contains a list of principal vendors. A glossary of terms and a bibliography of suggested reading complete the work. This basic teaching guide provides the media specialist with all the tools necessary to help novice users to be successful and avoid the frustration of electronic database searching and retrieval. *Whizkids Presentation & Desktop Publishing I' 2002 Mill Ed. ,*
