Equality Governance via Policy Analysis? Arn T. Sauer,2018-11-08 Gender impact assessment has been both celebrated
as a beacon of hope for the cause of gender equality and criticised as being ineffectual More than 20 years of gender
mainstreaming have demonstrated that equality governance with and through impact assessment is an intersectional and still
evolving process Arn T Sauer s study examines the instruments of gendered policy analysis and the conditions under which
they are being used by the Canadian federal government and the European Commission Interviews with experts from public
administration and instrument designers as well as document analyses reveal benefits and challenges and show that the
success of equality governance depends upon whether knowledge about gendered policy and appropriate administrative
practices are embedded embodied and entrenched in public administration **Reference Guide** University of California,
