How to Guard an Art Gallery T.S. Michael, 2009-09-01 An accessible and engaging tool for understanding the branch of mathematics that is so crucial to modern computer science using real life problems Mathematical Reviews What is the maximum number of pizza slices one can get by making four straight cuts through a circular pizza How does a computer determine the best set of pixels to represent a straight line on a computer screen How many people at a minimum does it take to guard an art gallery Discrete mathematics has the answer to these and many other questions of picking choosing and shuffling T S Michael's gem of a book brings this vital but tough to teach subject to life using examples from the real world and popular culture Each chapter uses one problem such as slicing a pizza to detail key concepts about counting numbers and arranging finite sets Michael takes a different perspective in tackling each of eight problems and explains them in differing degrees of generality showing in the process how the same mathematical concepts appear in varied guises and

contexts In doing so he imparts a broader understanding of the ideas underlying discrete mathematics and helps readers appreciate and understand mathematical thinking and discovery This book explains the basic concepts of discrete mathematics and demonstrates how to apply them in largely nontechnical language The explanations and formulas can be grasped with a basic understanding of linear equations Engineering Mathematics John Bird, J. O. Bird, 2003 Engineering Mathematics is a comprehensive pre degree maths text for vocational courses and foundation modules at degree level in the U K John Bird s approach based on numerous worked examples supported by problems is ideal for students of a wide range of abilities and can be worked through at the student s own pace Theory is kept to a minimum placing a firm emphasis on problem solving skills and making this a thoroughly practical introduction to the core mathematics needed for engineering studies and practice Throughout the book assessment papers are provided that are ideal for use as tests or homework These are the only problems where answers are not provided in the book Full worked solutions are available to lecturers only as a free download from the Newnes website www.newnespress.com Teaching Secondary Mathematics David Rock, Douglas K. Brumbaugh, Thomas J. P. Brady, 2024-02-15 Solidly grounded in up to date research theory and technology Teaching Secondary Mathematics is a practical student friendly and popular text for secondary mathematics methods courses It provides clear and useful approaches for mathematics teachers and shows how concepts typically found in a secondary mathematics curriculum can be taught in a positive and encouraging way The thoroughly revised fifth edition combines this pragmatic approach with truly innovative and integrated technology content throughout Synthesized content between the book and a comprehensive Instructor and Student Resource website offers expanded discussion of chapter topics additional examples and technological tips such as using and assessing artificial intelligence Each chapter features tried and tested pedagogical techniques problem solving challenges discussion points activities mathematical challenges and student life based applications that will encourage students to think and do New to the fifth edition A fully revised chapter on technological advancements in the teaching of mathematics including the use of artificial intelligence A new chapter on equity shame and anxiety in the mathematics classroom Connections to both the updated National Council of Teachers of Mathematics NCTM Focal Points and Standards Problem solving challenges and sticky questions featured in each chapter to encourage students to think through everyday issues and possible solutions A fresh interior design to better highlight pedagogical elements and key features A completely updated Instructor and Student Resource site with chapter by chapter video lessons teacher tools problem solving Q As exercises and helpful links and resources A Companion to Research in Education Alan D.
