

The Hualin D95 is a further development of the popular Hualin D90, but it does everything a better. Both cranes look very similar, but that's where the similarities cease.

The design solutions include bending the oil for the hydraulic cylinders through the cylinder bottom, which allows for an endless bending or using oil the better boom.

HUALIN D95 – the strong choice in the 10 tm class

The Hualin D95 features a new, low-headroom boom system with a separate telescopic cylinder on each extension, we have done away with all moving on the outer boom and telescopes and reduced the need for a hook attachment to just one – on the outer extension. All this leads to easier handling in confined areas and more larger loads. Consistently reduce friction and give smoother boom action.

The Hualin D95's working geometry has been optimized, resulting in better lifting capacity – in the upper lifting range, capacity has been boosted by over 20%. What's more, the D95 has an amazing close-in lifting height.

The Hualin D95 is a modern general cargo crane in the 10 tm capacity class that offers excellent maneuverability. Choose between crane controls, Hualin's well-known "joystick" version with the new computerized, so-called remote-controlled "joystick" with Hualin's new and top-line of control platform.
