**Turfloop a Conscious Pariah** Kanyane Chris Kanyane, Chris Kanyane, 2010 This book provides reflections on the butterfly effect on how Turfloop brought in the Age of Barack Obama What is the Age of Barack Obama To paraphrase Dr Ineke Van Kessel a prominent historian at the Leiden University in the Netherlands The University of the North also known as Turfloop played a vital role as the center of communication coordination ideological direction the engine of bringing the new South Africa was University of the North We approached this book like detectives Fortunately in our detective work we were not concerned with a particular agenda we were not trying to prove that a certain method of thinking was right or wrong We didn't want this book to be filled with personal opinions and biases We wanted this book to be juicy and accessible to every person who reads it in whatever corner of the world We have to back up our story with facts of course and get other people to do practical analysis and later we added our own perspectives When we completed writing this book we passed it around amongst critical people spread across the globe Most of them said that the book is somehow highbrow and at the same time all together lowbrow which came as a compliment A lot of people are somewhere in between We want this book to embody that because there are many people there we want them to appreciate this book

**Turfloop Testimony** G. M. Nkondo, 1976 Background information on higher education for blacks in South Africa and a report on the University of the North is presented While the English language universities in South Africa have emphasized academic freedom and autonomy and have been open to nonwhite students the Afrikaans language universities have conformed to national policy and the social order and have been closed to blacks In 1959 legislation established universities exclusively for blacks and governed by whites based on a policy of separate development and a belief in fundamental racial differences The growth of black consciousness and sensitivity toward differential and discriminatory practices is considered along with confrontations that occurred between the State and the students of the University of the North Findings are presented of a one person judicial Commission of Inquiry the Snyman Commission which investigated management issues the causes of disturbances at the University of the North and the Black Academic Staff Association The Commission recommended introducing a largely black governing council and authorizing joint responsibility of blacks and whites for teaching and administrative functions allowing students to choose among universities and eliminating differential salaries and conditions for black and white staff The study commission's questionnaire items and answers are presented SW

South African Pressclips, 1987 *The Law and the Prophets* Daniel R. Magaziner, 2010 No nation can win a battle without faith Steve Biko wrote and as Daniel R Magaziner demonstrates in *The Law and the Prophets* the combination of ideological and theological exploration proved a potent force The 1970s are a decade virtually lost to South African historiography This span of years bridged the banning and exile of the country's best known antiapartheid leaders in the early 1960s and the furious protests that erupted after the Soweto uprisings of June 16 1976 Scholars thus know that something happened yet they have only recently begun to explore

how and why *The Law and the Prophets* is an intellectual history of the resistance movement between 1968 and 1977 it follows the formation early trials and ultimate dissolution of the Black Consciousness movement It differs from previous antiapartheid historiography however in that it focuses more on ideas than on people and organizations Its singular contribution is an exploration of the theological turn that South African politics took during this time Magaziner argues that only by understanding how ideas about race faith and selfhood developed and were transformed in this period might we begin to understand the dramatic changes that took place Publisher description

**Investigating Corruption and White-collar Crime in South African Higher Education** Bethuel Sibongiseni Ngcamu, 2025-10-16 Using an interpretivist approach this qualitative volume interrogates instances of corruption and white collar crime prevalent in South African higher education institutions and suggests pathways for the proactive detection and prevention of corrupt practices Contextualizing the author's practical experiences gained in the higher education sector over the past two decades this book employs an ethnographical method to explore the complexity of university systems structures and functions that make South Africa's formerly disadvantaged universities more susceptible to corruption In the midst of highly contested divisive and highly politicized ways of reporting corruption in the media chapters provide critical analyses guided by scientific approaches robust data sets and qualitative face to face interviews to underpin the reliability of proposed policy amendments intended to detect and prevent corruption and white collar crime as well as the suggested closure of loop holes that make the sector vulnerable to and known for a high level of criminality Making a substantial contribution to broader academic debate around corruption and university management internationally this book will be of interest to researchers and postgraduate students in the field of higher education higher education management and administration and education policy and politics Policy makers in both the Global South and North are also likely to benefit from this book

**Political Science in South Africa** Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities The fourteen contributions evaluate the state of the discipline's and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection This book was published as a special issue of Politikon
