D. Glaser, 2014-10-13 The world is becoming increasingly mobile Smartphones and tablets have become more powerful and popular with many of these devices now containing confidential business financial and personal information This has led to a greater focus on mobile software security Establishing mobile software security should be of primary concern to every mobile application developer This book explains how you can create mobile social applications that incorporate security throughout the development process Although there are many books that address security issues most do not explain how to incorporate security into the building process *Secure Development for Mobile Apps* does exactly that Its step by step guidance shows you how to integrate security measures into social apps running on mobile platforms You'll learn how to design and code apps with security as part of the process and not an afterthought The author outlines best practices to help you build better more secure software This book provides a comprehensive guide to techniques for secure development practices It covers PHP security practices and tools project layout templates PHP and PDO PHP encryption and guidelines for secure session management form validation and file uploading The book also demonstrates how to develop secure mobile apps using the APIs for Google Maps YouTube jQuery Mobile Twitter and Facebook While this is not a beginner's guide to programming you should have no problem following along if you've spent some time developing with PHP and MySQL **Essential PHP Security** Chris Shiflett, 2005-10-13 Being highly flexible in building dynamic database driven web applications makes the PHP programming language one of the most popular web development tools in use today It also works beautifully with other open source tools such as the MySQL database and the Apache web server However as more web sites are developed in PHP they become targets for malicious attackers and developers need to prepare for the attacks Security is an issue that demands attention
