De-/Re-Contextualizing Conference

Interpreting Ebru Diriker,2004-08-26 This groundbreaking study explores Simultaneous Conference Interpreting SI by focusing on interpreters as professionals working in socio cultural contexts and on the interdependency between these contexts and actual SI behavior While previous research on SI has been dominated by cognitive and psycholinguistic approaches Diriker s work explores SI in relation to the broader and more immediate socio cultural contexts by investigating the representation of the professional in the meta discourse and by exploring the presence of interpreters and the nature of the interpreted utterance at an actual conference Making use of participant observations interviews and analysis of conference transcripts Diriker challenges some of the widely held assumptions about SI She suggests that the interpreter s delivery represents not only the speaker but a multiplicity of speaker positions and that this multiplicity may well be a source of tension or vulnerability as well as strength for interpreters Her analysis also highlights how interpreters negotiate meaning in SI and underscores the need for more concerted efforts to explore SI in authentic contexts Recharting

Territories Gisele Dionísio da Silva,Maura Radicioni,2022-09-15 Since the inception of Translation Studies in the 1970s its researchers have held regular metareflections Largely based on the assessment of translation and interpreting as two distinct but related modes of language mediation each with its own research culture these intradisciplinary debates have sought to take stock of the state of research within an ever expanding discipline in search of institutional identity and autonomy Recharting Territories proposes a more widespread and systematic intradisciplinary approach to researching translational phenomena one which can be applied at various analytical levels theoretical conceptual methodological pragmatic and emphasize both similarities and differences between subdisciplines Such an approach rather than consolidating a territorial attitude on the part of scholars aims to raise awareness of the ever shifting terrain on which Translation Studies stands **Translation and Style**

Jean Boase-Beier,2019-09-02 Style plays a major role in the translation of literary as well as non literary texts and Translation and Style offers an updated survey of this highly interdisciplinary area of translation studies Jean Boase Beier examines a variety of disciplines and theoretical approaches including stylistics literary criticism and narratology to investigate how we translate style This revised and expanded edition of the 2006 book Stylistic Approaches to Translation offers new and accessible explanations on recent developments in the field notably in the areas of Relevance Theory and cognitive stylistics With many authentic examples to show how style affects translation this book is an invaluable resource for both students and scholars working in translation studies and comparative literature **Stylistic Approaches to Translation**

Jean Boase-Beier,2014-06-03 The concept of style is central to our understanding and construction of texts But how do translators take style into account in reading the source text and in creating a target text This book attempts to bring some coherence to a highly interdisciplinary area of translation studies situating different views and approaches to style within general trends in linguistics and literary criticism and assessing their place in translation studies itself Some of the issues addressed are the link between style and meaning the interpretation of

stylistic clues in the text the difference between literary and non literary texts and more practical questions about the recreation of stylistic effects These various trends approaches and issues are brought together in a consideration of the most recent cognitive views of style which see it as essentially a reflection of mind Underlying the book is the notion that knowledge of theory can affect the way we translate Far from being prescriptive theories which describe what we know in a general sense can become part of what an individual translator knows thus opening the way for greater awareness and also greater creativity in the act of translation Throughout the discussion the book considers how insights into the nature and importance of style might affect the actual translation of literary and non literary texts

Parliament: House of Commons: Justice Committee,2013-02-06 Evidence suggests that the MoJ did not have a sufficient understanding of the complexities of court interpreting work Significant concern was revealed that quality standards could be diminished by the imposition of a tiered system to enable a wider pool of interpreters and by the introduction of lower

levels of pay However the Department pushed ahead with the contract and failed to properly anticipate or address the potential for problems with Applied Language Solutions ALS capacity to deliver on its promises ALS and more recently Capita has been unable to recruit qualified and experienced interpreters in sufficient numbers Professional interpreters have largely boycotted the new arrangements and Capita ALS clearly needed significantly more resources than it had at its disposal It also only paid lip service to the regulatory duties accepted under the Framework Agreement yet did not have the capacity to cope with complaints or to implement basic vetting procedures The MoJ has had to monitor Capita ALS very closely to secure the level of improvement necessary to make the Agreement workable and continues to do so The existing arrangements may not be financially sustainable as Capita is propping up the continuation of the Agreement which mean that the Department s savings originally projected to be 15million are effectively being secured at the company s expense Actions taken by MoJ also had the effect of hampering the inquiry when HMCTS issued an edict to its staff instructing them not to participate in the Committee s online consultation established to invite direct observations from frontline staff of the performance of ALS
