

Managing Democracy Managing Dissent

Capitalism, Democracy
and the Organisation of Consent

"... a brave book. Not to be missed."

*Silvia Federici, author of Caliban and the Witch
and Revolution at Point Zero*

Edited by Rebecca Fisher
Corporate Watch

Managing Democracy Managing Dissent

Christos Boukalas

Managing Democracy Managing Dissent:

Managing Democracy, Managing Dissent Rebecca Fisher, 2014-12 Managing Democracy Managing Dissent comprises of twenty essays written by writers academics and activists and edited by Corporate Watch researcher Rebecca Fisher which collectively argue that in today's democracy elite interests are served by the limitations placed upon popular participation in decision making by the manipulation of public opinion through propaganda and from the attempts to co-opt marginalise and or repress oppositional politics This ground breaking book reveals how despite its inherently anti democratic nature global capitalism is dependent upon the manipulation of the concept of democracy to survive It thus exposes a potential weakness at the heart of capitalism which activists and campaigners can usefully target in their struggle against oppression and environmental destruction The volume includes examinations of the inherent contradiction between genuine democracy and corporate capitalism the use of corporate media the entertainment industry and celebrity activists as propaganda vehicles the attempts to co-opt and neutralise NGOs and social movements the demonisation and repression of unco-opted dissent and the imperialist agendas behind so called democracy promotion interventions Publisher description Locating Law, 3rd Edition Elizabeth Comack, 2020-05-27T00:00:00Z Praise for the second edition This book is the best available for teaching the role of law in society and making sense of how it operates within the inter connections of race class and gender dynamics often perpetuating oppression Locating Law is essential for undergraduate students in justice sociology and criminology Margot Hurlbert University of Regina Students regularly tell me that Locating Law is their favourite book out of the selections for the Law and Society course The case studies are sufficiently different from one another that the students deepen their general knowledge and they appreciate the fact that the chapters are written in a style they can understand Jennifer Jarman Lakehead University A primary concern within the study of law has been to understand the law society relation Underlying this concern is the belief that law has a distinctly social basis it both shapes and is shaped by the society in which it operates This book explores the law society relation by locating law within the nexus of race class gender sexuality relations in society In addition to updating the material in the theoretical and substantive chapters this third edition of Locating Law includes three new contributions sentencing law and Aboriginal peoples corporations and the law and obscenity and indecency legislation The analyses offered in the book are sure to generate discussion and debate and in the process enhance our understanding of law's location Performing Antagonism Tony Fisher, Eve Katsouraki, 2017-01-20 This book combines performance analysis with contemporary political philosophy to advance new ways of understanding both political performance and the performativity of the politics of the street Our times are pre eminently political times and have drawn radical responses from many theatre and performance practitioners However a decade of conflict in the Middle East and Afghanistan the eruption of new social movements around the world the growth of anti capitalist and anti globalisation struggles the upsurge of protests against the blockades of neoliberalism and the rising tide of dissent and anger against

corporate power with its exorbitant social costs have left theatre and performance scholarship confronting something of a dilemma how to theorize the political antagonisms of our day Drawing on the resources of post Marxist political thinkers such as Chantal Mouffe and Jacques Rancière the book explores how new theoretical horizons have been made available for performance analysis

The First Amendment in the Trump Era Timothy Zick, 2019-09-30 Regardless of how the presidency of Donald J Trump ultimately concludes a significant part of its legacy will relate to the First Amendment The president has publicly attacked the institutional press and individual reporters calling them the enemy of the people He has proposed that flag burners be jailed and de naturalized blocked critics from his Twitter page communicated hateful and derogatory ideas and defended the speech of white nationalists More than any other modern president Trump has openly challenged fundamental First Amendment norms and principles relating to free speech and free press These challenges have come at a time when the institutional press faces economic and other pressures that negatively affect their functions and legitimacy political and other forms of polarization are on the rise and protesters face diminished space and opportunities for exercising free speech rights The First Amendment in the Trump Era catalogs and analyzes the various First Amendment conflicts that have occurred during the Trump presidency It places these conflicts in historical context as part of our current digitized and polarized era but also as part of a broader narrative concerning attacks on free speech and press We must understand what is familiar in terms of the First Amendment concerns of the present era but also what is distinctive about these concerns The Trump Era has once again reminded us of the need for a free and independent press the need to protect robust and sometimes caustic criticism of public officials and the importance of protest and dissent to effective self government

Advocacy NGOs and the Neoliberal Pacification of the Demands of the Street Juan Francisco Palma Carvajal, 2021-08-04 This book critically explores the role of two advocacy NGOs actively involved in processes of education policymaking during the recent education reforms carried out in Chile the country known as the first laboratory of neoliberalism around the world Based on Foucault's theoretical work on governmentality the book argues that neoliberalism as a form of governmentality has permeated in Chilean policymaking generating new forms of domination through freedom by situating NGOs as active and responsible subjects of government In this way this volume contests the supposed benefits of NGOs as a force to enhance democracy and foment social participation arguing instead that NGOs image as representatives of civil society can be used to pacify social movements demands for radical change and build a political consensus that serves to legitimate government interests in policymaking

Critical Perspectives on Social Media and Protest Lina Dencik, Oliver Leistert, 2015-10-06 Commercial social media platforms have become integral to contemporary forms of protests They are intensely used by advocacy groups non governmental organisations social movements and other political actors who increasingly integrate social media platforms into broader practices of organizing and campaigning But aside from the many advantages of extensive mobilization opportunities at low cost what are the implications of social media

corporations being involved in these grassroots movements This book takes a much needed critical approach to the relationship between social media and protest Highlighting key issues and concerns in contemporary forms of social media activism including questions of censorship surveillance individualism and temporality the book combines contributions from some of the most active scholars in the field today Advancing both conceptual and empirical work on social media and protest and with a range of different angles the book provides a fresh and challenging outlook on a very topical debate

Homeland Security, its Law and its State Christos Boukalas,2014-03-26 This book assesses the impact of post 9 11 domestic counterterrorism policy on US political life It examines political discourse law institutional architecture and state population relations and shows that homeland security is a project with wide ranging implications for democratic institutions and culture These implications are addressed through a novel approach that treats law and the state as social relations and relates developments in law to those in the state and in social dynamics On this basis the book examines the new political representations in counterterrorism discourse especially regarding the relation between the state and the population It examines the form and content of counterterrorism law the powers it provides and the structure and functions it prescribes for the state By focusing on the new Department of Homeland Security and the restructuring of the intelligence apparatus the book assesses the new intelligence led policing model Finally it examines forms of popular support and resistance to homeland security to discuss citizenship and state population relations The author concludes that homeland security has turned the US into a hybrid polity the legal and political institutions of democracy remain intact but their content and practices become authoritarian and exclude the population from politics These legal and political forms remain operative beyond counterterrorism in the context of the present economic crisis They are a permanent configuration of power This book is an indispensable companion for students of counter Terrorism and Security Studies Politics Human Rights Constitutional and Criminal Law American Studies and Criminology

Sociology in Post-Normal Times Charles Thorpe,2022-02-28 The Covid 19 pandemic and the disruptions of climate change are features of post normal times In Sociology in Post Normal Times Charles Thorpe contends that the modern project of creating normalcy within the nation state has broken down Integral to this is sociology which is the science of social reform Drawing from the work of seminal theorists such as Zygmunt Bauman and Anthony Giddens Thorpe contends that sociology s society is no longer viable because globalization has put an end to social reform thus the assumptions and goals of sociology must be left behind in order to create a new global humanity In the face of the pandemic and climate change Sociology in Post Normal Times demands no less than the birth of a global humanity beyond nation states as the precondition for human survival **New**

Directions for International Relations Alex Mintz,Bruce M. Russett,2005-01-01 Why does the academic study of international relations have limited impact on the policy community In New Directions for International Relations Mintz and Russett identify differences in methods of analysis as one cause of problematic unreliable results They discuss the problem

and set the stage for nine chapters by diverse scholars to demonstrate innovative new developments in IR theory and creative new methods that can lay the basis for greater consensus *Perspectives in Defense Management* ,1971 **The Corporate Criminal** Steve Tombs,David Whyte,2015-03-27 Key features of the book Introduces criminology students and people with an interest in the corporate crime to the concept of the corporate person Develops a unique understanding of corporate criminal personality as a source of corporate power Synthesises academic literature in criminology with broader academic commentary in sociology law business studies and political science Dissects ongoing popular and political debates around corporate social responsibility and moral capitalism Offers unique insights into the origins of the current crisis in capitalism from a criminological perspective *Towards Anti-policing* Simon Springer,Richard J. White,2024-02-14 Offering a diagnostic global perspective on police brutality Towards Anti policing Prefiguring Possibilities beyond the Thin Blue Line raises critical questions about whether policing is needed at all and what underlying purpose it actually serves In this post pandemic era where the grip of authoritarianism has only tightened Towards Anti policing positions radical grassroots activism as a first line of critical defiance against the Fear Terror Paradigm of policing logics and the pervasive brutality that this form of community control represents *Redefining Comparative Constitutional Law* ,2024-11-25 Over the past two decades the field of comparative constitutional law has emerged as a major domain of scholarly inquiry It has also been a notable feature in judicial practice Many of the world s leading courts are now composed of at least some members who engage with comparative materials and thinking comparatively has developed into one of the most significant ways of engaging in constitutional analyses Redefining Comparative Constitutional Law Essays for Mark Tushnet reflects upon the field of comparative constitutional law Among the most prominent figures in the development of the field in its ongoing renaissance has been Mark Tushnet This book uses the occasion of Professor Tushnet s recent retirement from Harvard Law School to think critically about the field Each essay takes up one of Professor Tushnet s major recent themes which focuses on variations within liberal constitutionalism and the possibility of other forms of constitutionalism that find articulation under other political regimes In this book leading scholars contribute to the debate over the nature of the field including the role of empiricism and language discussions of democracy and entrenchment analyses of rights and courts consideration of constitutional design and explorations of the extent to which there are varieties of constitutionalism At a moment of renewed stress and political debate over the relationship between democracy and constitutionalism Redefining Comparative Constitutional Law Essays for Mark Tushnet offers timely insights into comparative analyses of constitutional rights Academics and students alike will benefit from the essays that range across both methodological questions and substantive analysis in the development of constitutions throughout the globe **Leadership and Uncertainty Management in Politics** François Vergnolle De Chantal,2015-08-11 Through a range of international case studies from the USA UK France Germany and Italy this text assesses the conditions necessary for effective leadership and emphasizes the part played by

uncertainty and division amongst followers *Soft Power and Freedom under the Coalition* E. Bell, 2015-02-27 This study of five key policy areas from welfare reform to foreign policy demonstrates that the Conservative Liberal Democrat coalition failed to fulfil its promise to reverse the rising power of the State It exercised more subtle forms of soft power often in partnership with the private sector and to the detriment of ordinary citizens The Politics and Law of Democratic Transition Sonia Zaman Khan, 2017-10-25 Peaceful legal and political changing of the guards is taken for granted in developed democracies but is not evident everywhere As a relatively new democracy marred by long periods of military rule Bangladesh has been encountering serious problems because of a prevailing culture of mistrust weak governance institutions constant election manipulation and a peculiar socio political history which between 1990 and 2011 led to a unique form of transitional remedy in the form of an unelected neutral caretaker government CTG during electoral transitions This book provides a contextual analysis of the CTG mechanism including its inception operation manipulation by the government of the day and abrupt demise It queries whether this constitutional provision even if presently abolished after overseeing four acceptable general elections actually remains a crucial tool to safeguard free and fair elections in Bangladesh Given the backdrop of the culture of mistrust the author examines whether holding national elections without a CTG or an umpire of some kind can settle the issue of credibility of a given government The book portrays that even the management of elections is a matter of applying pluralist approaches Considering the historical legacy and contemporary political trajectory of Bangladesh the cause of deep rooted mistrust is examined to better understand the rationale for the requirement emergence and workings of the CTG structure The book unveils that it is not only the lack of nation building measures and governments wish to remain in power at any cost which lay behind the problems that Bangladesh faces today Part of the problem is also the flawed logic of nation building on the foundation of Western democratic norms which may be unsuitable in a South Asian cultural environment Although democratic transitions on the crutch of the CTG have been useful in moments of crisis its abolition creates the need for a new or revised transitional modality perhaps akin to the CTG ethos to oversee electoral governance which will have to be renegotiated by the polity based on the people's will The book provides a valuable resource for researchers and academics working in the area of constitutional law democratic transition legal pluralism and election law Overcoming Cognitive Biases in Strategic Management and Decision Making Siniksaran, Enis, 2024-02-12 The persistent presence of cognitive biases has influenced rational decisions and strategic management since the 1970s These prejudiced errors in judgment often systematic and predictable breach the foundational assumptions of economic theory leading to dire consequences such as social inequality financial collapse and governmental inefficiency Even the brightest minds are not immune making it crucial to address these biases head on *Overcoming Cognitive Biases in Strategic Management and Decision Making* unravels the complex tapestry of biases that infiltrate decision making processes at all levels From social injustice biases and reasoning errors to action inaction and social biases the book confronts the myriad of

ways that biases manifest in critical moments These pose a significant threat to sound decision making in various fields impacting professionals ranging from judges and doctors to public officials The repercussions of unchecked biases are far reaching leading to flawed outcomes that echo through society The urgent need for a strategic response to mitigate these biases and enhance decision making processes forms the crux of the problem this book seeks to address **The Bloomsbury Handbook of Theory in Comparative and International Education** Tavis D. Jules, Robin Shields, Matthew A. M. Thomas, 2021-01-28 This book offers a practical and approachable overview of central theories in comparative and international education CIE The chapters focus in depth on specific theoretical perspectives and seek to elucidate the histories assumptions and recent developments of these theories The chapters also situate the theories within CIE include specific case studies of theoretical application and outline suggestions for further reading Written by leading scholars from around the world this is must have reference work for anyone teaching researching studying or working in CIE The handbook includes chapters on a diverse collection of theories including but not limited to Structural functionalism Colonialism Imperialism Marxism Human Capital Theory Dependency World Systems Theory Post Colonialism Post Socialism Post Foundationalism Neo liberalism Neo Institutionalism Neo Marxism Policy Borrowing and Lending Peace Theories Human Rights Constructivism Racism Gender Queer Theory Social Network Theory Capabilities Theory and Cultural Political Economy **Routledge Handbook of Radical Politics** Ruth Kinna, Uri Gordon, 2019-05-16 Successive waves of global protest since 1999 have encouraged leading contemporary political theorists to argue that politics has fundamentally changed in the last twenty years with a new type of politics gaining momentum over elite representative institutions The new politics is frequently described as radical but what does radicalism mean for the conduct of politics Capturing the innovative practices of contemporary radicals Routledge Handbook of Radical Politics brings together leading academics and campaigners to answer these questions and explore radicalism s meaning to their practice In the thirty five chapters written for this collection they collectively develop a picture of radicalism by investigating the intersections of activism and contemporary political theory Across their experiences the authors articulate radicalism s critical politics and discuss how diverse movements support and sustain each other Together they provide a wide ranging account of the tensions overlaps and promise of radical politics while utilising scholarly literatures on grassroots populism to present a novel analysis of the relationship between radicalism and populism Routledge Handbook of Radical Politics serves as a key reference for students and scholars interested in the politics and ideas of contemporary activist movements **Austerity and Working-Class Resistance** Adam Fishwick, Heather Connolly, 2018-09-05 The working classes today are facing a new set of crises around increasing austerity authoritarianism exploitation and surveillance But in many places and in many ways they are resisting From new forms of workplace organisation migrant workers challenging their exploitation struggles against digitalised work and through alternative forms of grassroots mobilisation working class resistance is emerging in new and often unexpected

spaces Through a range of cases in Europe and from around the world this book brings radical voices from sociology political economy labour relations and media studies to offer an understanding of the potential of working class struggles in and against these hard times This engaging volume is an attempt to understand how new dynamic sites of resistance in and outside the workplace are central to the different ways in which workers survive disrupt and create new ways of living The perfect guide for students and academics looking for a critical and comprehensive collection dealing with contemporary and global cases of working class resistance

Enjoying the Song of Phrase: An Mental Symphony within **Managing Democracy Managing Dissent**

In some sort of eaten by displays and the ceaseless chatter of immediate transmission, the melodic elegance and psychological symphony created by the published term frequently disappear into the back ground, eclipsed by the constant noise and disruptions that permeate our lives. Nevertheless, situated within the pages of **Managing Democracy Managing Dissent** a marvelous literary prize filled with fresh emotions, lies an immersive symphony waiting to be embraced. Constructed by an elegant composer of language, that captivating masterpiece conducts viewers on a psychological trip, well unraveling the concealed tunes and profound affect resonating within each cautiously constructed phrase. Within the depths with this moving assessment, we can investigate the book is main harmonies, analyze its enthralling publishing fashion, and surrender ourselves to the profound resonance that echoes in the depths of readers souls.
