Revisiting Islamic Economics Nabil El Maghrebi,Abbas Mirakhor,Tarik Akın,Zamir Iqbal,2023-12-20 This book discusses the need for a paradigm shift from Islamic economics universe of discourse to Iqtisād a socio economic system that is entirely independent from other economic doctrines and systems of thought It provides an overview of critiques of the science and dogma of mainstream orthodox neoclassical or simply Economics with its axioms of rationality scarcity and unlimited wants There is also a critical analysis of Islamic economics and its failures to set its own policy agenda and development objectives Our contention in this book is that Iqtisād the Qur'an's vision of how the economy is to be arranged

provides such a paradigm with a radically different philosophical foundation from that of Economics to the point that makes grafting one onto the other Impossible Iqtis d offers a genuine and authentic Islamic paradigm with unique etymological and philosophical foundations It is a unique system that derives its organizing principles from the principal source of the Quran rather than Economics The logical coherence of its immutable system of rules compliance institutional structures and risk sharing relations provides the foundations for economic dynamism financial stability and shared prosperity It ensures that resources are efficiently managed poverty is eradicated income and wealth mal distributions are corrected and the internal sources of economic injustices gripping human societies are eliminated The Impossibility Theorem proposed in this book implies that metaphysically ontologically epistemologically axiologically and teleologically the two polar cases of Iqtis d and Economics are so radically different to rule out any grafting of one onto the other in order to present an intermediate paradigm with a synthetic discipline called Islamic economics Given its multidisciplinary contents this book will be of interest to a wide audience including economists policymakers philosophers theologians and jurists and can guide also free thinking readers to a clarity of understanding about the conditions of humanity and the imperative of change with a sincerity of purpose and coherence in knowledge

Mengerian Microeconomics Ivan Jankovic, 2021-01-04 This book explores the neglected contribution of the American and English psychological school to economic theory especially to the development and refinement of the Austrian school of economics It argues that Frank Knight Frank Fetter Herbert Davenport Philip Wicksteed and J B Clark among others improved on the original Austrian theory by Menger and Bohm Bawerk by providing a coherent subjectivist foundation for the theories of production and distribution They succeeded where economic theory before them failed to develop the theories of interest profit wages and rents based solely on the principles of subjective value and marginal utility eschewing the last remnants of the old cost of production models This book represents a look at what mainstream economic theory might have looked like had the erasure of Mengerian Austrian price theory by Marshallian and Walrasian theories not taken place and had the improvements and refinements of the Mengerian tradition itself done by the Anglo Saxon followers of Menger been fully appropriated

The Microeconomics Anti-Textbook Rod Hill, Tony Myatt, 2021-12-02 Mainstream textbooks present economics as an objective science free from value judgements The Microeconomics Anti Textbook demonstrates this to be a myth one which serves to make such textbooks not only off puttingly bland but also dangerously misleading in their justification of the status quo and neglect of alternatives In this fully updated and expanded edition of their celebrated book Professors Rod Hill and Tony Myatt lay out the essentials of each topic in the standard texts in a clear and concise way before presenting an anti text analysis and critique Challenging the assumptions arguments and models Hill and Myatt provide the essential guide to decoding the textbooks and show that real economics is far more interesting and subversive than the simplistic version presented to students

Corporate Social Responsibility and Civil Society in India Nandini Deo, 2024-09-10 Corporate social responsibility CSR or billionaire philanthropy is like a

Rorschach test the same act can look very different depending on how we understand its intentions and its consequences In this book the author examines the politics of CSR in India to assess its ability to advance inclusive and sustainable development The focus is on how CSR is remaking the practices and agendas of civic organizations that are being encouraged to collaborate with business to advance equality and prosperity Civil society organizations CSOs and corporations have a history of hostility to each other According to CSO workers businesses selfishly exploit workers despoil natural resources and distort democracy to serve their own profit making ends According to business executives CSOs are hopelessly naïve inefficient and interfere in the market in ways that reduce economic growth And yet in the past decade more and more CSOs and businesses are collaborating in new ways Individuals from both sectors are setting up social impact enterprises and social investing funds are increasing The more traditional forms of corporate CSO collaboration have expanded as more funds are flowing from business to the social sector The divide between the corporate sector and civil society seems to be narrowing Why is this happening and what are its consequences This book examines these trends in India where since 2013 the state has mandated co operation between the largest firms and NGOs in pursuit of inclusive and sustainable development This book offers evidence that CSR is unlikely to contribute to inclusive and sustainable development By claiming to be helpers corporations are able to silence their critics and thus avoid making the deeper shifts in business models needed in order to create a more just and sustainable society Economics ,1999 **Proceedings of the 9th International Conference on Accounting, Management, and Economics 2024 (ICAME 2024)** Mursalim Nohong,Fitra Roman Cahaya,Phung Minh Tuan,Arifuddin Mannan,Anas Iswanto Anwar,Rianda Ridho Hafizh Thaha,Rakhmat Nurul Prima Nugraha,Andi Tenri Harahap,Muhammad Try Dharsana,Fakhrul Indra Hermansyah,2025-08-30 This is an open access book The Integration of Blue Green Economy Business for Sustainability
