It takes an interface approach to study the syntax semantics and phonology of questions and proposes a phonological scope marking strategy in Chinese questions based upon experimental data. Communicating Strategically in English as a Lingua Franca Janin Jafari, 2020-12-30 There have been noticeable demographic changes recently in the use of English around the world. English as a medium of communication is now the contact language of native speakers from many diverse speech communities who interact with each other in multilingual contexts. The use of English as a lingua franca (ELF) and its implications has become a hot topic in applied linguistics and English studies. *Communicating Strategically in English as a Lingua Franca* reflects the growing interest in achieving communicative effectiveness in ELF situations and provides a comprehensive account of recent empirical findings in the field of ELF. In doing so, this book makes a considerable contribution to the growing field of empirical studies in ELF. It explores the usage of pragmatic strategies and highlights their significant role in communicative effectiveness in ELF interactions.
