The Vocation of Writing Marc Crépon, 2018-04-01 Explores how violence structures language and the writing of literature and philosophy Within the violence our societies must confront today exists a dimension proper to language Anyone who has been through the educational system for example recognizes how language not only shapes and models us but also imposes itself upon us During the twentieth century this system revealed how language can condemn one to a certain death In *The Vocation of Writing* philosopher Marc Crépon explores this dimension of language convinced that the node of all violence pertains first to language and how we make use of it Crépon focuses on Kafka Levinas Singer and Derrida not only because each rose against commandeering language in order to warn against the next massacres but also because their work affirms the vocation of writing that which makes literature and philosophy the final weapon for unmasking the violence and hatred that language bears at its heart To affirm the vocation of writing is to turn language against itself to defuse its murderous potentialities by opening it toward exchange responsibility and humanity when the latter fixes the other and the world as its goals

New York Nouveau Sara Kippur, 2025-08-12 Postwar French writers were at the vanguard of global literary innovation from the experimental minimalism of the Nouveau Roman to the literary games of the OuLiPo but less often appreciated is the extent to which they worked closely with US editors and translators published actively with American presses and often theorized transatlantic connections within their work In this exciting new work Sara Kippur proposes a new French literary history that traces the deep connections between postwar literary experimentalism and the New York publishing industry compellingly arguing that US based editors publishers producers professors and translators crucially intervened to shape French literature While Kippur attends closely to well known writers such as Marguerite Duras Samuel Beckett Eugène Ionesco Georges Perec and Alain Robbe-Grillet she also amplifies the voices of those who have been less visible though no less relevant including women whose contributions have not received proper credit but who helped to foster a sense of new possibilities for twentieth century French writing With these untold histories stitched together in this book through new archival discoveries from special collections and personal archives on both sides of the Atlantic Kippur begins to dismantle rigid notions of canonicity authorship and national literature
