Papers, 1962 The Journal of Home Economics, 1925 *The Socio-Economics of Roman Storage* Astrid Van Oyen, 2020-05-14 In a pre industrial world storage could make or break farmers and empires alike. How did it shape the Roman empire? The Socio Economics of Roman Storage cuts across the scales of farmer and state to trace the practical and moral reverberations of storage from villas in Italy to silos in Gaul and from houses in Pompeii to warehouses in Ostia. Following on from the material turn, an abstract notion of surplus makes way for an emphasis on storage's material transformations e.g. wine fermenting, grain degrading assemblages forming which actively shuffle social relations and

economic possibilities and are a sensitive indicator of changing mentalities This archaeological study tackles key topics including the moral resonance of agricultural storage storage as both a shared and a contested concern during and after conquest the geography of knowledge in domestic settings the supply of the metropolis of Rome and the question of how empires scale up It will be of interest to scholars and students of Roman archaeology and history as well as anthropologists who study the links between the scales of farmer and state

Audretsch, 2019-04-11 Using institutional economics as a theoretical framework this book analyzes institutional environment conducive to entrepreneurial activity in order to enhance economic performance across countries In particular the main contributions of this book to the entrepreneurship literature are the

following Identify past and current research about the institutional context shaping entrepreneurial activity and its effect on economic growth Examine social progress orientation as those institutional factors that are shaping innovative entrepreneurial activity Explore the effect of different types of entrepreneurial activities on economic growth Examine how social progress orientation through opportunity driven entrepreneurship affects economic development Analyze the interrelationships between institutions entrepreneurial activity and economic development across countries Study how the country s institutional context influences the way in which entrepreneurial activity affects social progress Two sides of the same coin might be observed when analyzing policy aspects of those institutions affecting entrepreneurial activity On the one hand effective public policy to promote entrepreneurship is predicated on understanding the underlying forces as well as the consequences and impacts of entrepreneurship On the other hand different endeavors to promote entrepreneurial activity might have deleterious economic effects since they could actually reduce employment in the long term Thus it is crucial to understand the institutional environment in which entrepreneurs are interacting and making decisions The comprehension of these phenomena serves to move forward the theoretical practical and policy debate on entrepreneurship as a mechanism to achieve higher economic performance
