Command terms

Classification of command terms

In the learning outcomes (see syllabus content) the command terms are associated with assessment objectives 1, 2 or 3 and indicate the depth of understanding that is required of students in relation to each item of content. The grouping of command terms under assessment objectives reflects the cognitive demand of each term and is related to Bloom's taxonomy.

A command term used in an examination question will be:

- the same as that specified in the related learning outcome, or
- another command term associated with the same assessment objective, or
- a command term of less cognitive demand.

For example, if a learning outcome begins with the command term "explain", an examination question based on this learning outcome could contain the command term "explain", another command term associated with assessment objective 2 (such as "analyse"), or a command term associated with assessment objective 1 (such as "describe"), but not a command term associated with assessment objective 3 (such as "evaluate").

Bail-In and Total Loss-Absorbing Capacity (TLAC) Yves Mauchle,2016-06-01 As opposed to a bank bailout a bail in occurs when creditors are forced to bear some of the burden of bank failure The principal aim of this restructuring tool is to eliminate some of the risk for taxpayers Several jurisdictions including Switzerland and the European Union EU have adopted legal provisions regarding the bail in but until this book literature on its implementation has been scarce Offering a detailed and comparative analysis of EU and Swiss law relating to bail ins and their economic impact this is the first book to

provide in depth coverage of this new method of dealing with the failure of systemically important banks In its contextualisation and analysis of the bail in resolution tool the book identifies and discusses the legal and economic issues that arise including such aspects as the following the legal and economic properties of bail in capital the regulatory standard on total loss absorbing capacity TLAC issued by the Financial Stability Board FSB the scope and sequence of liabilities subjected to bail in the legal position of stakeholders affected by a bail in strategies and procedures for the implementation of a bail in the limited circumstances under which government rescues should be available and cross jurisdictional issues and aspects of international cooperation As well as case studies and analyses of legal issues with particular reference to Swiss law and the European Bank Resolution and Recovery Directive 2014 59 EU the author applies economic concepts to the analysis of the law International developments in particular standards issued by leading regulatory bodies are also covered This book will be welcomed by legal practitioners working in banks and in banking regulation and by policymakers seeking information on the practical issues involved As a detailed analysis of a new and highly significant development in banking law it will also be of great interest to academics
