

6. THREE-POINT HITCH & DRAWBAR

■ Top Link Mounting Holes

Select the proper set of holes by referring to the "Hydraulic Control Reference Chart" on page 28.

If the hydraulic unit is set for draft control, draft response is more sensitive when an implement is connected to the lower set of top link mounting holes [4950 (DT), 5950 (DT) Models]. If draft control is not required, it is recommended to use the top set (1).

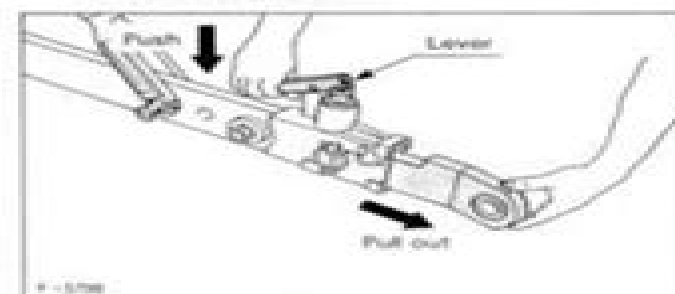

■ Adjustment of Top Link

- (1) Adjust the angle of the implement to the desired position by shortening or lengthening the top link.
- (2) The proper length of the top-link varies according to the type of implement being used.

■ Telescoping Lower Links [6950 (DT), 7950 (DT), 8950 (DT) Models]

To attach an implement, follow the instructions below:

- (1) Push the levers, pull out the lower link ends, and attach to the implement.
- (2) Back up the tractor slightly to make sure the lower links are pushed in securely.
