

5.8 If $p = 2$, the firm will produce 1 unit of output. If $p = 1$, the first-order condition suggests $y = 1/2$, but this yields negative profits. The firm can get zero profits by choosing $y = 0$. The profit function is $\pi(p) = \max\{p^2/4 - 1, 0\}$.

5.9.a $dx/d\alpha = py > 0$.

5.9.b $dy/d\alpha = p/c''(y) > 0$.

5.9.c $p'(\alpha) = n[y + \alpha p/c''(y)]/[D'(p) - n\alpha/c''] < 0$.

5.10 Let $y(p, \mathbf{w})$ be the supply function. Totally differentiating, we have

$$dy = \sum_{i=1}^n \frac{\partial y(p, \mathbf{w})}{\partial w_i} dw_i = - \sum_{i=1}^n \frac{\partial x_i(p, \mathbf{w})}{\partial p} dw_i = - \sum_{i=1}^n \frac{\partial x_i(\mathbf{w}, y)}{\partial y} \frac{\partial y(p, \mathbf{w})}{\partial p} dw_i.$$

The first equality is a definition; the second uses the symmetry of the substitution matrix; the third uses the chain rule and the fact that the unconditional factor demand, $x_i(p, \mathbf{w})$, and the conditional factor demand, $x_i(\mathbf{w}, y)$, satisfy the identity $x_i(\mathbf{w}, y(p, \mathbf{w})) = x_i(p, \mathbf{w})$. The last expression on the right shows that if there are no inferior factors then the output of the firm must increase.

5.11.a $\mathbf{x} = (1, 1, 0, 0)$.

5.11.b $\min\{w_1 + w_2, w_3 + w_4\}y$.

5.11.c Constant returns to scale.

5.11.d $\mathbf{x} = (1, 0, 1, 0)$.

5.11.e $c(w, y) = [\min\{w_1, w_2\} + \min\{w_3, w_4\}]y$.

5.11.f Constant.

5.12.a The diagram is the same as the diagram for an inferior good in consumer theory.

5.12.b If the technology is CRS, then conditional factor demands take the form $x_i(\mathbf{w}, 1)y$. Hence the derivative of a factor demand function with respect to output is $x_i(\mathbf{w}) \geq 0$.

5.12.c The hypothesis can be written as

$$\partial c(\mathbf{w}, y)^2 / \partial y \partial w_i < 0.$$

But

$$\partial c(\mathbf{w}, y)^2 / \partial y \partial w_i = \partial c(\mathbf{w}, y)^2 / \partial w_i \partial y = \partial x_i(\mathbf{w}, y) / \partial y.$$

starting point for the deeper research and policy design needed to successfully create urban transport finance systems that can address the challenges that 21st century cities present

Dionysian Economics Benjamin Ward, 2016-10-03 Nietzsche distinguished between two forces in art Apollonian which represents order and reason and Dionysian which represents chaos and energy An ideal work of art combines these two characteristics in a believable relatable balance Economists Ward argues have operated for too long under the assumption that their work reflects scientific Apollonian principals when these simply do not or cannot apply constants in economics stand in for variables mathematical equations represent the simplified ideal rather than the complex reality and the core scientific principal of replication is all but ignored In Dionysian Economics Ward encourages economists to reintegrate the standard rigor of the scientific method into their work while embracing the fact that their prime indicators come from notoriously chaotic and changeable human beings Rather than emphasizing its shortfalls compared to an extremely Apollonian science such as physics economics can aspire to the standards of a science that accounts for considerable Dionysian variation such as biology The book proposes that economists get closer to their dynamic objects of study that they avoid the temptation to wish away dynamic complexity by using simplifying assumptions and that they recognize the desire to take risks as fundamentally human

Microeconomics Avinash Dixit, 2014-04 The issues of microeconomics including individuals financial choices and firms decisions about hiring and firing have a large impact on the economic world arguably as much if not more than macroeconomics In this Very Short Introduction Avinash Dixit clearly explains what microeconomics is by using examples from around the world

Human Resource Management Practices in Selected Ethiopian Private Companies: A Study to Increase Employee Productivity in Ethiopia Dirk J. van Wasbeek, 2004-09-24 This dissertation examines how human resources are managed at selected Ethiopian private companies how Ethiopian human resource management practice is evolving and how it can be improved The examination is qualitative and exploratory since no comparative research on human resource management has yet been conducted at Ethiopian profit or non profit organizations An understanding of Ethiopian human resource management practice makes it possible to improve Ethiopian human resource management practice and thus to increase employee productivity The study took place at four manufacturing and four service companies in Addis Ababa all representative of their sector The research claim is that Ethiopian human resource management practices differ from human resource management practices in the West due to differences in cultural factors economic systems political systems and legal and industrial relations For this reason Ethiopia s culture politics economy and legal and industrial relations have been analyzed The main finding of this study is that the importance of human resource management is not uniformly understood at all the case study companies Although the multinational companies based in Ethiopia see their human resources as the companies most important asset as human capital the local companies generally do not The fact that respondents claim that Ethiopia has limited experience in industrialization might explain why human resource management in Ethiopia is rudimentary and still has a long way to go

With this dissertation the researcher wants to contribute to improving Ethiopian human resource management practice Moreover this dissertation may be used as a framework for similar research in other sectors or for more specific in depth research This dissertation may also serve as a knowledge base for company managers business consultants academics and government officials of countries with a national culture similar to Ethiopia s for example Kenya Tanzania and Zambia countries undergoing or which have undergone a recent transition to a free market economy and countries facing similar macro economic developments Microeconomics Paul Krugman,Robin Wells,2009 The second edition of this popular text has been extensively revised and updated to provide students with a comprehensive overview of Microeconomics Internationally renowned author Paul Krugman and experienced Microeconomics Lecturer Robin Wells use real world examples to explain economic ideas making them easy to understand
