History Paper 2 Grade 11 Memorandum:

The History of the U.S. Army Medical Service Corps Richard V. N. Ginn, 1997 *Kennedy, Adenauer and the Making of the Berlin Wall, 1958-1961* Fabian Rueger, 2011

Kennedy Adenauer and the Making of the Berlin Wall 1958 1961

The Second Berlin Crisis which began with Soviet Premier Nikita Khrushchev's threat to sign a separate peace treaty with East Germany in November 1958 has largely been interpreted by foreign policy historians as a conflict between the superpowers in which the dependent allies the Federal Republic of Germany and the GDR had almost no influence on the course of events that led to the erection of the Berlin Wall. This interpretation served the political purposes of the governments involved for most of the Cold War. The Kennedy administration as leading government of the Western world could claim to have successfully managed a difficult crisis; the Adenauer administration and the Ulbricht regime could both point to Washington's and Moscow's responsibility for the division of Germany's capital and Khrushchev as leading statesman of the Warsaw pact could finally deliver on some of his promises made to the Communist Party of the Soviet Union. However, recent findings suggest that Ulbricht not Khrushchev was the driving force behind the decision to close the East Berlin sector. In the course of the first two years of the Kennedy administration, severe problems arose in West German American relations. It is time to ask how the West German government's interactions with the Kennedy administration influenced the course of the crisis. President Eisenhower had seemingly managed to avoid an escalation of the Berlin crisis from 1958 to late 1960. This came at the cost of increasing pressure for his successor to find a solution. Ten months into the Kennedy administration, Berlin was divided by a wall and American and Soviet tanks faced each other at Checkpoint Charlie. This dissertation reexamines the interactions between the Western governments, in particular between West Germany and the United States during the Second Berlin Crisis, and shows how these affected the outcome of the crisis. The first chapter serves as an introduction to the historiography of the Berlin Crisis and German American relations in the period, especially between the Kennedy and Adenauer governments and defines the pertinent questions; the second chapter provides an outline of the first two years of the crisis and the Eisenhower administration's approach to Adenauer and Berlin, especially as to Western policy on Berlin when the Eisenhower administration handed over the reins; the third to fifth chapters trace the Kennedy administration's and Chancellor Adenauer's interactions during the crisis in 1961 with particular regard to the actual sealing off of West Berlin; and the last chapter finally serves as an overview of the immediate aftermath. I argue that four key assumptions about the Berlin Wall crisis in 1961 can no longer be upheld:

1. The claim that Kennedy had stood firm on Berlin and merely continued the Eisenhower posture on Berlin is wrong. Instead, the Kennedy administration attempted to find new approaches to Berlin and Germany in line with its general revision of US foreign policy.
2. The notion that the closing of the sector border came as a surprise is not supported by the documents. President Kennedy had been informed numerous times that a closing of the sector border could be expected within the year.
3. Adenauer's policy to prevent diplomatic recognition of

the GDR contributed to an escalation of Washington's search for alternative policy options rather than slowing them. The West German election campaign in 1961 further limited the chancellor's willingness to make changes to his foreign policy. The Kennedy administration eventually sought accommodation with Khrushchev without consulting Bonn.⁴ Inherent conceptual mistakes in Kennedy's early foreign policy agenda exacerbated the crisis rather than contributed to its eventual solution. An additional lack of trust between West Germany and the United States complicated and delayed the attempt to find a more coherent unified Western approach. All four Western governments anticipated an end to the refugee flow through West Berlin as the first step in a crisis escalation while developing no contingency plans for this step. The lack of any political intention to prevent the expected stop of the refugee flow became the casting mould for Ulbricht's plan to close the sector border, a plan Khrushchev eventually made his own. By leaving Ulbricht and Khrushchev with only one option, Western policies on Berlin and Germany unwillingly conspired to force East Germany to face its systemic flaws in the summer of 1961.

A History of the Oklahoma State University Division of Agriculture Donald E. Green, 1990 Catalogue of the Publications and Importations of the Macmillan Co. 1907-08, Aug. 1, 1907 Macmillan Company, 1907 *The Scottish Educational Journal*, 1919 **History of operations research in the United States Army** Charles R. Shrader, 2006 A Contemporary History of the U.S. Army Nurse Corps, This book focuses on an organization the U.S. Army Nurse Corps which the author has been privileged to be affiliated with in one way or another for the greatest part of her adult life. As an active duty officer, the author had first-hand knowledge about the Army Nurse Corps' inner workings and spent the last years of her Army career from 1992 researching and writing the Corps history. One of her goals in researching and writing this history was to intrigue and provide a sense of gratification for the reader. After the conclusion of the Vietnam War, several wide-ranging and significant changes exerted myriad effects on the Army Nurse Corps. The most influential of these phenomena included the dismantling of the Selective Service System, the reorganization of the Army, the launch of the Health Services Command (HSC), the opening of the Academy of Health Sciences, the transformation of the Office of the Army Surgeon General, the inauguration of improvements in the Army Reserve and National Guard, and the evolution in the roles and status of women.

Pioneers of Amphibious Warfare, 1898-1945 Leo J. Daugherty III, 2009-06-08. The planning that allowed for the successful amphibious landings at the end of World War II actually began during the 1880s as the Marine Corps sought to define its role in the new Steel Navy. Officers braved skepticism, indifference, and outright opposition to develop an amphibious warfare doctrine with each service contributing. From the 1898 war with Spain through the disastrous 1915 Australian landing to the successful World War II assaults in the Pacific and northwest France, this chronological history explores the successes and failures pivotal to the concept of amphibious warfare through the lives and careers of fourteen officers instrumental to its development. Profiles include General George S. Patton Jr., Rear Admiral Walter C. Ansel, USN, Lieutenant General John A. Lejeune, USMC, Admiral William Sims, USN, and Colonel Robert W. Huntington, USMC. Report
