

1. INTRODUCTION

1.1 Intended use and unintended use

This AEG appliance is intended to be used to store, heat and provide drinking water. The appliance should only be used in household and similar environments, such as:

- In shops, offices and other similar working environments;
- In farm houses;
- By clients in hotels, motels and other residential type environments;
- In bed and breakfast type environments.

The appliance should not be used:

- For commercial or industrial purposes;
- In vehicles or on board ships or aircrafts;
- In locations with the presence of a corrosive or explosive atmosphere;
- For medical purposes;

The appliance may only be used according to the instructions as described in this manual. All use other than described in this manual is seen as unintended use.

1.2 General working principle

This AEG appliance stores, heats and provides boiling drinking water in addition to cold and warm water.

To supply boiling water, cold water flows from the cold water supply to the boiler, where it is heated to 100 °C. From the boiler the boiling water flows to the tap.

The cold water also flows from the cold water supply directly to the cold water inlet on the tap.

There are two ways to provide the tap with warm water:

- Warm water can be supplied by connecting the warm water supply, if available, to the warm water inlet on the tap. This situation is named the solo configuration.
- Cold water and boiling water from the boiler can be mixed with the mixing valve. The mixed water outlet of the mixing valve can be connected to the warm water inlet on the tap. This situation is named the combi configuration.

How To Write A User Guide

David Kirk

How To Write A User Guide:

When people should go to the ebook stores, search establishment by shop, shelf by shelf, it is in point of fact problematic. This is why we allow the ebook compilations in this website. It will definitely ease you to look guide **How To Write A User Guide** as you such as.
