GENRE

War Literature

PERSPECTIVE AND NARRATOR

The Iliad is narrated from a third-person omniscient point of view.

ABOUT THE TITLE

Iliad is Greek for “poem about Ilium,” which is an alternate name for the city of Troy, the setting of the Trojan War.

🕒 In Context

Trojan War

Based on its prominence in Homer’s work, the Trojan War was a central and defining event of Greek prehistory. It is believed to have been fought in the 13th or 12th century BCE. The continued interest in it in Homer’s time, approximately 400 years later, is significant. Greek city-states were fiercely independent and perpetually at war with one another, yet Homer describes the Achaean (Greek) army in Book 2 of *The Iliad* as originating from more than 150 different locations from all over mainland Greece and the Peloponnese. While this number of different groups may be poetic exaggeration, an alliance between any large number of them would have been remarkable. It is impossible to infer any historical details of the war from the poem. However, archeological evidence found in the ancient city believed to be Troy supports its destruction in war around 1250 BCE.

Troy is believed to have been located in northwestern Asia Minor, near the mouth of the Hellespont, now called the Dardanelles, in modern-day Turkey. As such, the Trojans were a separate people divided from Greece by the Aegean Sea. However, Greek culture had spread through much of western Asia Minor by Homer’s time. He depicts them as worshipping the same gods and living by the same values as the Greeks they are fighting.

As depicted in *The Iliad*, the Trojan War was caused by Paris’s seduction and theft of Helen from Agamemnon. Scholars, however, speculate that the conflict may have had more to do
