**Landmark Cases in Consumer Law** Jodi Gardner, Iain Ramsay, 2024-01-11 This book analyses the history of the common law foundations of consumer law and encourages readers to rethink the role that consumer law plays in our society Consumer law is often constructed as purely statute based law However as this collection will demonstrate this is far from the truth Much of the history of the common law concerns consumer transactions and markets Case law has often established or modified the ground rules of consumer markets has had a patterning effect on the economic organisation of markets and has expressed cultural visions of the market and consumers An analysis of landmark cases of consumer law allows many traditional cases to be viewed through a new and distinct lens providing significant academic and intellectual value The collection also includes a unique socio legal perspective considering the role that consumer law has played in addressing racial discrimination LGBTQ challenges and the rights of women This collection of landmark cases demonstrates the theoretical and practical significance of consumer law through a wide range of contributions by distinguished authors from the United Kingdom Europe the United States and Australia

**The Impact of the UK Human Rights Act on Private Law** David Hoffman, 2011-10-13 The Human Rights Act 1998 has had a profound effect in numerous private law decisions and has been the subject of extensive academic debate in particular on the issue of the extent to which it has horizontal effect and its application in disputes between individuals With contributions from a variety of academics and practitioners this volume covers and contributes to the academic debate on horizontal effect and considers how theory matches up with case law the limits of the Act for private law and its impact on key areas including privacy defamation negligence nuisance property commercial law and employment Together the book provides a practical critique of the areas discussed which will be of academic interest to theorists and of practical benefit to lawyers and judges who wish to understand how the academic debates can be brought to bear in particular cases

**Personal Insolvency in the 21st Century** Iain Ramsay, 2017-05-04 Since 1979 the world has witnessed a remarkable cycle of personal insolvency law reform Changes in capitalist economies financial crises and political interest groups all contributed to this cycle of reform This book

examines the role of interest groups and distinct narratives in shaping reform in different countries while drawing attention to the role of timing path dependency and unintended consequences in the development of personal insolvency law The book presents case studies of personal insolvency law in the US France Sweden and England and Wales It then analyses how following the Great Recession of 2008 international financial institutions paid greater attention to the significance of household debt in contributing to financial instability and the role of individual insolvency law in providing a fresh start Personal insolvency law reform became part of EU responses to the eurozone crisis and the EU has proposed harmonisation of individual insolvency law to promote entrepreneurialism This book examines the extent to which these developments represent an emerging international commonsense about personal insolvency and its relationship to neo liberalism Finally this book discusses whether the international emergence of individual personal insolvency law represents a progressive step or a band aid for the costs of neo liberal policies where a significant number of people live close to the precipice of over indebtedness

*The Insolvency Service* Great Britain: Parliament: House of Commons: Business, Innovation and Skills Committee,2013-02-06 The Business Innovation and Skills Committee has today published a report containing a number of conclusions and recommendations resulting from its inquiry into the Insolvency Service including i without an increase in resources the investigations unit will be unable to increase the number of cases it can prosecute which will further undermine stakeholder confidence ii there is a risk that further reductions in annual running costs and staff may put undue pressure on the Insolvency Service to deliver iii it is clear from the evidence that the fee generated income model for the Official Receiver Service is unreliable in the current economic climate iv issues remain with pre pack administration which need to be addressed v given the level of debt relief they can receive it would not be unreasonable to increase the 525 upfront fee that individual debtor bankrupts have to pay The Committee welcomes the news that the regulators and the insolvency industry have been working together to create common regulatory standards across the profession The creation of a single gateway for complaints common standards and a common appeals process would be an important step in this regard The Service should be required to publish an annual report that charts progress in this area [The Essential Business Guide](#)

work there are also new questions including surrogacy and the gendered experience of asylum frameworks which have emerged As policy makers seek to enact reforms they face a population with increasingly polarised perceptions of gender and a legal structure ill equipped for modern realities This edited volume directly addresses modern Irish debates on law and gender Providing an overview of the existing rules and standards as well as exploring possible options for reform the collection stands as an important statement on the law in this jurisdiction and as an invaluable resource for pursuing gendered social change While the edited collection applies a doctrinal methodology to explain current statutes case law and administrative practices the contributors also invoke critical gender queer and race perspectives to identify and problematise existing and potential challenges This edited collection is essential reading for all who are interested in law gender and processes of social change in modern Ireland
