**Collective Redress and EU Competition Law** Eda Şahin, 2018-12-07 Exploring obstacles to effective compensation of victims of competition infringements this book categorises the types of victims harmed and the types of losses arisen from these infringements to identify to what extent there is a need for enhanced private competition law enforcement in the European Union EU and the best way to address this need It shows that there is a genuine need for facilitating consumer damages actions and that consumer claims are the only claims that can be pursued in a collective redress action In order to compensate consumers and overcome barriers to effective enforcement of their right to damages it

structures a collective redress action for consumers by considering the following elements i the formation of the group ii the type of representative party iii funding mechanisms and iv calculation and distribution of damages

**Russia and the New World Disorder** Bobo Lo, 2015-08-17 A Brookings Institution Press and Chatham House publication The Russian annexation of Crimea was one of the great strategic shocks of the past twenty five years For many in the West Moscow's actions in early 2014 marked the end of illusions about cooperation and the return to geopolitical and ideological confrontation Russia for so long a peripheral presence had become the central actor in a new global drama In this groundbreaking book renowned scholar Bobo Lo analyzes the broader context of the crisis by examining the interplay between Russian foreign policy and an increasingly anarchic international environment He argues that Moscow's approach to regional and global affairs reflects the tension between two very different worlds the perceptual and the actual The Kremlin highlights the decline of the West a resurgent Russia and the emergence of a new multipolar order But this idealized view is contradicted by a world disorder that challenges core assumptions about the dominance of great powers and the utility of military might Its lesson is that only those states that embrace change will prosper in the twenty first century A Russia able to redefine itself as a modern power would exert a critical influence in many areas of international politics But a Russia that rests on an outdated sense of entitlement may end up instead as one of the principal casualties of global transformation

*Plausible Legality* Rebecca Sanders, 2018-08-01 In many ways the United States post 9 11 engagement with legal rules is puzzling Officials in both the Bush and Obama administrations authorized numerous contentious counterterrorism policies that sparked global outrage yet they have repeatedly insisted that their actions were lawful and legitimate In *Plausible Legality* Rebecca Sanders examines how the US government interpreted reinterpreted and manipulated legal norms and what these justificatory practices imply about the capacity of law to constrain state violence Through case studies on the use of torture detention targeted killing and surveillance Sanders provides a detailed analysis of how policymakers use law to achieve their political objectives and situates these patterns within a broader theoretical understanding of how law operates in contemporary politics She argues that legal culture defined as collectively shared understandings of legal legitimacy and appropriate forms of legal practice in particular contexts plays a significant role in shaping state practice In the global war on terror a national security culture of legal rationalization encouraged authorities to seek legal cover to construct the plausible legality of human rights violations in order to ensure impunity for wrongdoing Looking forward law remains vulnerable to evasion and revision As Sanders shows despite the efforts of human rights advocates to encourage deeper compliance the normalization of post 9 11 policy has created space for future administrations to further erode legal norms

*The European Banking Union* Giuseppe Boccuzzi, 2016-01-26 The 2008 financial crisis all but brought down the financial system and real economies of industrial countries The Banking Union took a broad approach to resolve the structural fragmentation and distortions in the European banking system which were major obstacles to a working single market for financial services This book examines the

numerous changes happening to European legislations for the prevention and management of banking crises What emerges is a changing picture of regulations and institutions of goals tools and opinions public and private European and national all involved in the task The book focuses on the new framework for banking crisis management starting from the foundations of banking regulation and supervision It explores the institutional architecture of banking supervision and crisis management the powers of the authorities the tools for administrative actions the complexities of business and bankruptcy laws individual rights and their legal guarantees

**The EU Common Consolidated Corporate Tax Base** Dennis Weber, Jan van de Streek, 2016-04-24 In October 2016 the European Commission relaunched its plan to harmonize national income tax systems via the Common Consolidated Corporate Tax Base CCCTB perhaps the most ambitious reform of EU tax law ever attempted This timely book offers an early analysis of this important proposal and its implications covering issues such as the project's scope and main elements international considerations the relationship with OECD's base erosion and profit shifting BEPS initiative consolidation and anti abuse rules With carefully selected papers first presented at a January 2017 conference hosted by the Amsterdam Centre for Tax Law this volume focuses on such topics and issues as the following ways in which the proposed CCCTB is designed to preserve the competence of Member States to set their own tax rates reduction of the administrative burden for multinational companies incentives for research and development automatic cross border relief within the EU detailed analysis of the proposal's formula apportionment regime proposed new controlled foreign company CFC rules and interest limitation rule Because of the commitment of many Member States to keep their corporate income tax systems competitive on a stand alone basis the proposed CCCTB is enormously controversial This book provides authoritative insights into problems likely to arise and discusses the prospects of how the proposal is likely to be implemented Thus this book proves to be of immeasurable value to taxation policymakers practitioners and academics

**TRIPS plus 20** Hanns Ullrich, Reto M. Hilty, Matthias Lamping, Josef Drexl, 2016-01-29 This book examines the impact and shortcomings of the TRIPS Agreement which was signed in Marrakesh on 15 April 1994 Over the last 20 years the framework conditions have changed fundamentally New technologies have emerged markets have expanded beyond national borders some developing states have become global players the terms of international competition have changed and the intellectual property system faces increasing friction with public policies The contributions to this book inquire into whether the TRIPS Agreement should still be seen only as part of an international trade regulation or whether it needs to be understood or even reconceptualized as a framework regulation for the international protection of intellectual property The purpose therefore is not to define the terms of an outright revision of the TRIPS Agreement but rather to discuss the framework conditions for an interpretative evolution that could make the Agreement better suited to the expectations and needs of today's global economy

**The Alternative Investment Fund Managers Directive** Dirk A. Zetsche, 2015-09-14 Apart from MiFID the Alternative Investment Fund Managers Directive AIFMD may be the most important European asset management regulation of the early

twenty first century In this in depth analytical and critical discussion of the content and system of the directive thirty eight contributing authors academics lawyers consultants fund supervisors and fund industry experts examine the AIFMD from every angle They cover structure regulatory history scope appointment and authorization of the manager the requirements for depositaries and prime brokers rules on delegation reporting requirements transitional provisions and the objectives stipulated in the recitals and other official documents The challenging implications and contexts they examine include the following connection with systemic risk and the financial crisis nexus with insurance for negligent conduct connection with corporate governance doctrine risk management transparency the cross border dimension liability for lost assets impact on alternative investment strategies and the nexus with the European Regulation on Long Term Investment Funds ELTIFR Nine country reports representing most of Europe s financial centres and fund markets add a national perspective to the discussion of the European regulation These chapters deal with the potential interactions among the AIFMD and the relevant laws and regulations of Austria France Germany Italy Luxembourg Liechtenstein The Netherlands Malta and the United Kingdom The second edition of the book continues to deliver not only the much needed discussion of the inconsistencies and difficulties when applying the directive but also provides guidance and potential solutions to the problems it raises The second edition considers all new developments in the field of alternative investment funds their managers depositaries and prime brokers including but not limited to statements by the European Securities and Markets Authority ESMA and national competent authorities on the interpretation of the AIFMD as well as new European regulation in particular the PRIIPS Regulation the ELTIF Regulation the Regulation on European Venture Capital Funds EuVeCaR the Regulation on European Social Entrepreneurship Funds EUSEFR MiFID II and UCITS V The book will be warmly welcomed by investors and their counsel fund managers depositaries asset managers administrators as well as regulators and academics in the field

**Legal Integration and Language Diversity** C.J.W. Baaij, 2018-02-01 How can the European Union create laws that are uniform in a multitude of languages Specifically how can it attain both legal integration and language diversity simultaneously without the latter compromising the former C J W Baaij argues that the answer lies in the domain of translation A uniform interpretation and application of EU law begins with the ways in which translators and jurist linguists of the EU legislative bodies translate the original legislative draft texts into the various language versions In the European Union law and language are inherently connected The EU pursues legal integration i e the incremental harmonization and unification of its Member States laws for the purpose of reducing national regulatory differences between Member States However in its commitment to the diversity of European languages its legislative institutions enact legislative instruments in 24 languages Language Diversity and Legal Integration assesses these seemingly incompatible policy objectives and contemporary translation practices in the EU legislative procedure and proposes an alternative source oriented approach that better serves EU policy objectives Contrary to the orthodox view in academic literature and to the current policies of the

EU this book suggests that the English language version should serve as the original and only authentic legislative text Translation into the other language versions should furthermore avoid prioritizing clarity and fluency over syntactic correspondence and employ neologisms for distinctly EU legal concepts Ultimately Baaij provides practical solutions to the conflict between the equality of all language versions and the need for uniform interpretation and application of EU law

*International Law and Drone Strikes in Pakistan* Sikander Ahmed Shah, 2014-11-13 While conventional warfare has an established body of legal precedence the legality of drone strikes by the United States in Pakistan and elsewhere remains ambiguous This book explores the legal and political issues surrounding the use of drones in Pakistan Drawing from international treaty law customary international law and statistical data on the impact of the strikes Sikander Ahmed Shah asks whether drone strikes by the United States in Pakistan are in compliance with international humanitarian law The book questions how international law views the giving of consent between States for military action and explores what this means for the interaction between sovereignty and consent The book goes on to look at the socio political realities of drone strikes in Pakistan scrutinizing the impact of drone strikes on both Pakistani politics and US Pakistan relationships Topics include the Pakistan army government relationship the evolution of international institutions as a result of drone strikes and the geopolitical dynamics affecting the region As a detailed and critical examination of the legal and political challenges presented by drone strikes this book will be essential to scholars and students of the law of armed conflict security studies political science and international relations
