

## Mark scheme instructions to examiners

### General

The mark scheme for each question shows:

- the marks available for each part of the question
- the total marks available for the question
- marking instructions that indicate when marks should be awarded or withheld including the principle on which each mark is awarded. Information is included to help the examiner make his or her judgement and to delineate what is creditworthy from that not worthy of credit
- a typical solution. This response is one we expect to see frequently. However credit must be given on the basis of the marking instructions.

If a student uses a method which is not explicitly covered by the marking instructions the same principles of marking should be applied. Credit should be given to any valid methods. Examiners should seek advice from their senior examiner if in any doubt.

#### Key to mark types

|   |                                                               |
|---|---------------------------------------------------------------|
| M | mark is for method                                            |
| R | mark is for reasoning                                         |
| A | mark is dependent on M marks and is for accuracy              |
| B | mark is independent of M marks and is for method and accuracy |
| E | mark is for explanation                                       |
| F | follow through from previous incorrect result                 |

#### Key to mark scheme abbreviations

|         |                                                                   |
|---------|-------------------------------------------------------------------|
| CAO     | correct answer only                                               |
| CSO     | correct solution only                                             |
| ft      | follow through from previous incorrect result                     |
| 'their' | Indicates that credit can be given from previous incorrect result |
| AWFW    | anything which falls within                                       |
| AWRT    | anything which rounds to                                          |
| ACF     | any correct form                                                  |
| AG      | answer given                                                      |
| SC      | special case                                                      |
| OE      | or equivalent                                                     |
| NMS     | no method shown                                                   |
