Amaro, 2020-03-27T00:00:00+01:00 Il libro "Abilitazione alla professione di architetto: consigli e buona pratica" scaturisce dalla presa di coscienza degli Autori che svolgendo da anni attività di preparazione dei giovani neo laureati per conto dell'Ordine degli Architetti hanno avuto modo di toccare con mano il divario esistente tra il tipo di preparazione prevalentemente teorica fornita al laureato dalla formazione universitaria e quella più pratica e pragmatica legata all'esercizio quotidiano della professione effettivamente necessaria per un corretto approccio all'esame di abilitazione e all'inserimento del professionista neo abilitato nell'ambito lavorativo. Adattandosi alla attuale impostazione dell'esame di stato per l'abilitazione alla professione di architetto sia senior (sez. A) che iunior (sez. B) suddiviso in quattro prove: prova pratica di progettazione, relazione tecnica, tema prova orale. Il volume mira a fornire al candidato consigli utili all'ottimizzazione della preparazione pratica e teorica puntando sull'organizzazione dei tempi e delle nozioni ed evidenziando quali sono gli aspetti che vanno prevalentemente sviluppati e perfezionati per renderla efficace. Sono presenti inoltre numerosi spunti di riflessione riguardanti la buona pratica, il quadro normativo e la deontologia.

Urban Visions Carmen Díez Medina, Javier Monclús, 2018-06-23 This book is a useful reference in the field of urbanism. It explains how the contemporary city and landscape have been shaped by certain twentieth century visions that have carried over into the twenty-first century. Aimed at both students and professionals, this collection of essays on diverse subjects and cases does not attempt to establish universal interpretations; it rather highlights some outstanding episodes that help us understand why the planning culture has given way to other forms of urbanism from urban design to strategic urbanism or landscape urbanism. Compared with global interpretations of urbanism based on socioeconomic history or architectural historiography, "Urban Visions From Planning Culture to Landscape Urbanism" aims to present the discipline couched in international contemporary debate and adopt a historic and comparative perspective. The book's contents pertain equally to other related disciplines such as architecture, urban history, urban design, landscape architecture and geography. Foreword by Rafael Moneo
