

Removing the Decoder Board and Receiver Assembly

After removing the back cover as described in the procedure, remove the decoder board and receiver assembly (Figure 1) as follows:

Caution: The decoder board and receiver are removed as one assembly, and then separated later. When removing the assembly, take care not to break the wires connecting the decoder board and the speaker.

1. Gently pull the decoder board/receiver assembly out of the front housing at the battery end of the housing. Pull from the bottom of the decoder board/receiver assembly, lift up and gently wiggle the assembly.
2. The receiver is attached to the decoder by two eight-pin miniature connectors located at each end of the receiver. Turn the assembly over and remove the receiver by lifting it upward off the decoder board.
