A Practical Approach to Supporting Science and Engineering Students with Self-Regulated Learning Erin E. Peters-Burton, 2023-11-16 Science and engineering practices tend to be more difficult to teach and monitor for student progress than content knowledge because practices are skill based This book presents tangible ways for teacher educators and teachers to design learning environments that involve student goal setting monitoring and reflection on their performance of science and engineering practices It models ways teachers can support effective learning behaviors and monitor student progress in science and engineering practices It also presents practical ways to set up preservice teacher instruction and inservice teacher professional development that address both self regulated learning and science and engineering practices Educational research designs are presented from qualitative quantitative and mixed methods traditions that investigate student and teacher engagement with science and engineering practices through self regulated learning

Substitute Natural Gas from Waste Massimiliano Materazzi, Pier Ugo Foscolo, 2019-05-01 Substitute Natural Gas from Waste Technical Assessment and Industrial Applications of Biochemical and Thermochemical Processes provides an overview of the science and technology of anaerobic digestion and thermal gasification for the treatment of biomass and unrecyclable waste residues The book provides both the theoretical and practical basis for the clean and high efficiency utilization of waste and biomass to produce Bio Substitute Natural Gas SNG It examines different routes to produce bio SNG from waste feedstocks detailing solutions to unique problems such as scale up issues and process integration Final sections review waste sourcing and processing This book is an ideal and practical reference for those developing designing scaling and managing bio SNG production and utilization systems Engineering students will find this to be a comprehensive resource on the application of fundamental concepts of bio SNG production that are illustrated through innovative recent case studies Presents detailed scientific and technical information Describes up to date concepts processes and plants for efficient

anaerobic digestion and gasification of wastes and syngas utilization Compares gasification with anaerobic digestion for different situations Proposes alternative strategies to increase efficiency and overcome energy balance limitations Includes benchmarking data and industrial real life examples to demonstrate the main process features and implementation pathways of bio SNG systems from dry and wet waste both in developed and developing countries Uncertainty and Imprecision in Decision Making and Decision Support: New Challenges, Solutions and Perspectives Krassimir T. Scaling-up Higher Order Thinking Anat Zohar, 2023-05-30 This open access book addresses the evasive problem of why truly effective educational innovation on a wide scale is so difficult to achieve and what leaders may do about this. Examining the case of system wide reform processes centering on teaching a thinking rich curriculum, it discusses general issues pertaining to implementing deep large scale changes in the core of learning and instruction. The book emphasizes challenges related to professional development, assessment, achievement gaps, and the tension between knowledge and skills in 21st century curricula. It summarizes insights the author has gained from approximately 25 years of engaging with these topics both as an academic and as a practitioner who led a national change process. With a Forward by David Perkins.
