Therefore, costs may be capitalised to non-current assets. 3.	Standing order A standing order is an instruction to your bank to pay a fixed amount of money to someone at regular times. The distractors relate to other payment methods: • A credit card is a payment card issued to users (cardholders) to enable the cardholder to pay a merchant for goods and services based on the cardholder's credit limit. • A Direct Debit is an instruction from a user to their bank or building society, authorising the organisation to collect varying amounts from the user's bank account. • A cheque is an instrument with an unconditional order, addressed to the banker and signed by the user, instructing the bank to make a single, non-recurring payment.	2
