Special attention should be directed to the warnings provided below which identify certain precautions and special instructions for safe and efficient installation and use. Studying these instructions first may save you considerable time and money later and keep your installation time to a minimum. If you are not familiar with electricity or feel uncomfortable in working with electricity, refer the installation of this product to a licensed electrician or qualified person.

WARNING

TO REDUCE THE RISK OF FIRE, ELECTRIC SHOCK OR INJURY TO PERSONS:

1. **READ ALL INSTRUCTIONS** before installing or using the heater.
2. **ELECTRICAL SHOCK HAZARD:** Disconnect all electrical power coming to heater at circuit breaker box or main disconnect switch and lock in OFF position before wiring. All wiring must be in accordance with The National Electrical Code and applicable local codes and ordinances. The heater must be properly connected to an effective building ground.
3. Verify the supply voltage coming to heater is the same as shown on the heater nameplate before energizing. Energizing at a voltage in excess of nameplate voltage will damage heater and void warranty.
4. This heater has hot and arcing or sparking parts inside. Do not install or use in areas where gasoline, paint, or flammable liquids are used or stored.
5. Do not install this heater upside down, sideways, in ceiling, or floor. Install only as shown in this manual. Refer to **Mounting Clearances**, page 2 for minimum clearances that must be maintained.
6. The heater assembly must be installed in the back box provided. Do not operate the heater without the grille installed.
7. This heater is not approved for use in corrosive atmospheres such as marine, green house or chemical storage areas.
8. Do not use outdoors.
9. Extreme caution is necessary when any heater is used by or near children or invalids and whenever the heater is left operating or unattended.
10. This heater is hot when in use. To avoid burns, do not let bare skin touch hot surfaces. Keep combustible materials, such as furniture, pillows, bedding, papers, clothes, and curtains away from heater. Do not block air intake or exhaust in any manner. For efficient and safe operation, we recommend keeping all items at least 3 feet from front of heater.
11. Do not insert or allow foreign objects to enter any ventilation or exhaust opening as this may cause an electric shock or fire, or damage the heater.
12. Should the heater become blocked or otherwise overheat, it is provided with a manual-reset thermal safety switch and alarm light that will activate to alert that the heater has cycled off. If warning light is on, check to see if the reason for the overheating can be identified. Remove any blockage, allow heater to cool, then press Reset button. Heater should return to normal operation. Do not continue to use heater if it repeatedly cycles off. Have it inspected and repaired by a qualified repair person.
13. Use this heater only as described in this manual. Any other use not recommended by the manufacturer may cause fire, electric shock, or injury to persons.
