Geography Paper 2013 June Memo:

Deepening Neoliberalism, Austerity, and Crisis Julien Mercille, Enda Murphy, 2015-07-07 From bank bailouts to austerity Europe's and Ireland's response to the economic crisis has been engineered specifically to shift the burden of paying for the crisis onto ordinary citizens while investors financiers bankers and the privileged are protected The authors expose the class based nature of Ireland's crisis resolution

Ethnic Relations in Post-Soviet Russia Andrew Foxall, 2014-10-03 While the collapse of communism in Russia was relatively peaceful ethnic relations have been deteriorating since then This deterioration poses a threat to the functioning of the Russian state and is a major obstacle to its future development Analysing ethnic relations in the North Caucasus this book demonstrates how a myriad of processes that characterised post Soviet transition including demographic change economic upheaval geopolitical instability and political restructuring have affected daily life for citizens It raises important questions about ethnicity identity nationalism sovereignty and territoriality in the post Soviet space

The Drone Memos Jameel Jaffer, 2010-01-12 A trenchant summation and analysis of the legal rationales behind the US drone policy of targeted killing of suspected terrorists including US citizens Publishers Weekly starred review In the long response to 9 11 the US government initiated a deeply controversial policy of targeted killing the extrajudicial execution of suspected terrorists and militants typically via drones A remarkable effort was made to legitimize this practice one that most human rights experts agree is illegal and that the United States has historically condemned In The Drone Memos civil rights lawyer Jameel Jaffer presents and assesses the legal memos and policy documents that enabled the Obama administration to put this program into action In a lucid and provocative introduction Jaffer who led the ACLU legal team that secured the release of many of the documents evaluates the drone memos in light of domestic and international law He connects the documents legal abstractions to the real world violence they allow and makes the case that we are trading core principles of democracy and human rights for the illusion of security A careful study of a secretive counterterrorism infrastructure capable of sustaining endless orderless war this book is profoundly necessary Katrina vanden Heuvel editor and publisher of The Nation

The Triumph of Improvisation James Wilson, 2014-01-21 In The Triumph of Improvisation James Graham Wilson takes a long view of the end of the Cold War from the Soviet invasion of Afghanistan in December 1979 to Operation Desert Storm in January 1991 Drawing on deep archival research and recently declassified papers Wilson argues that adaptation improvisation and engagement by individuals in positions of power ended the specter of a nuclear holocaust Amid ambivalence and uncertainty Mikhail Gorbachev Ronald Reagan George Shultz George H W Bush and a host of other actors engaged with adversaries and adapted to a rapidly changing international environment and information age in which global capitalism recovered as command economies failed Eschewing the notion of a coherent grand strategy to end the Cold War Wilson paints a vivid portrait of how leaders made choices some made poor choices while others reacted prudently imaginatively and courageously to events they did not foresee A book about the

burdens of responsibility the obstacles of domestic politics and the human qualities of leadership The Triumph of Improvisation concludes with a chapter describing how George H W Bush oversaw the construction of a new configuration of power after the fall of the Berlin Wall one that resolved the fundamental components of the Cold War on Washington's terms

The Changing Practices of International Law Tanja Aalberts, Thomas Gammeltoft-Hansen, 2018-04-05 With more than 158 000 treaties and some 125 judicial organisations international law has become an inescapable factor in world politics since the Second World War In recent years however international law has also been increasingly challenged as states are voicing concerns that it is producing unintended effects and accuse international courts of judicial activism This book provides an important corrective to existing theories of international law by focusing on how states respond to increased legalisation and rely on legal expertise to manoeuvre within and against international law Through a number of case studies covering a wide range of topical issues such as surveillance environmental regulation migration and foreign investments the book argues that the expansion and increased institutionalisation of international law itself have created the structural premise for this type of politics of international law More international law paradoxically increases states' political room of manoeuvre in world society

Educational Reconstruction Gary McCulloch, 2013-09-05 This book presents a clear overview of the debates that surrounded the making of the 1944 Act which affected every aspect of education in this country It gives a detailed account of the tripartite divisions into three types of child that were sanctioned in the reforms of the 1940s At the same time it also emphasises the idea of education as a civic project which underlay the reforms and which was such an important part of their lasting authority The education policies of the past decade and the current attempts to shape a new education settlement need to be interpreted in a long term historical framework and in particular in relation to the aims and problems of the last great cycle of reform in the 1940s This book makes an important contribution to the development of such a framework and the social history of education policy in this country

National Uniform Legislation Guzyal Hill, 2022-08-11 This book aims to develop a conceptual framework upon which to draw for analysis of new and existing national reforms in Australia Due to growth in the volume and complexity of national uniform legislation law reform agencies the Commonwealth state and territory governments and policy institutions have more rather than less to do This book explores how they are required to respond to debates among actors from divergent geographical commercial and ideological backgrounds who sometimes demonstrate irreconcilable differences in values and perspectives From a policy implication perspective this book summarises a vast quantity of original and complex data so that it can be applied in the field among policymakers reformers legislative drafters students and the wider audience of legal practitioners working with harmonised legislation in federations This book acknowledges that uniform legislation is not a panacea for all legal challenges currently faced by federations However this book takes a step towards demystifying the many confusing factors that have obscured the underlying general principles A working theory of federal harmonisation enables the art of the impossible to become a

practical reality This book condenses data on legislation in models The models enable transparent evidence based decisions in the process of a federation s harmonisation to progress regulatory best practices and achieve more reliable sustainable results

Islam and the Liberal State Stephen H. Jones, 2020-11-26 National identity and liberal democracy are recurrent themes in debates about Muslim minorities in the West Britain is no exception with politicians responding to claims about Muslims lack of integration by mandating the promotion of fundamental British values including democracy and individual liberty This book engages with both these themes addressing the lack of understanding about the character of British Islam and its relationship to the liberal state It charts a gradual but decisive shift in British institutions concerned with Islamic education Islamic law and Muslim representation since Muslims settled in the UK in large numbers in the 1950s Based on empirical research including interviews undertaken over a ten year period with Muslims and analysis of public events organized by Islamic institutions Stephen Jones challenges claims about the isolation of British Islamic organizations and shows that they have decisively shaped themselves around British public and institutional norms He argues that this amounts to the building of a distinctive British Islam Using this narrative the book makes the case for a variety of liberalism that is open to the expression of religious arguments in public and to associations between religious groups and the state It also offers a powerful challenge to claims about the insularity of British Islamic institutions by showing how the national orientation of Islam called for by British policymakers is in fact already happening

The Canada-US Border in the 21st Century John B. Sutcliffe, William P. Anderson, 2018-11-02 Borders are critical to the development and survival of modern states offer security against external threats and mark public policy and identity difference At the same time borders and borderlands are places where people ideas and economic goods meet and intermingle The United States Canada border demonstrates all of the characteristics of modern borders and epitomises the debates that surround them This book examines the development of the US Canada border provides a detailed analysis of its current operation and concludes with an evaluation of the border s future The central objective is to examine how the border functions in practice presenting a series of case studies on its operation This

book will be of interest to scholars of North American integration and border studies and to policy practitioners who will be particularly interested in the case studies and what they say about the impact of border reform *Amaza Lee Meredith*
Imagines Herself Modern Jacqueline Taylor, 2023-11-28 The extraordinary life and work of architect Amaza Lee Meredith and the role modernism and material culture played in the aspiring Black American middle class of the early twentieth century Amaza Lee Meredith *Imagines Herself Modern* tells the captivating story of Amaza Lee Meredith a Black woman architect artist and educator born into the Jim Crow South whose bold choices in both life and architecture expand our understanding of the Great Migration and the Harlem Renaissance while revealing the importance of architecture as a force in Black middle class identity Through her charismatic protagonist Jacqueline Taylor derives new insights into the experiences of Black women at the forefront of culture in early twentieth century America caught between expectation and ambition responsibility and desire Central to Taylor's argument is that Meredith's response to modern architecture and art like those of other Black cultural producers was not marginal to the modernist project instead her work reveals the tensions and inconsistencies in how American modernism has been defined In this way the book shines a necessary light on modernism's complexity while overturning perceived notions of race and gender in relation to the modernist project and challenging the notion of the white male hero of modern architecture The Root of All Evil Cormac Moore, 2025-05-06 In May 1922 James Craig described the Boundary Commission as the root of all evil for Ulster unionists Conversely it ultimately bolstered the unionist cause leaving the border unchanged and abandoning swathes of Northern nationalists who had assumed that large tracts of land would be transferred to the Free State Offered to Sinn Féin plenipotentiaries during the 1921 Treaty negotiations the Boundary Commission was viewed as a major concession by David Lloyd George but the vague wording of the clause agreed to by the Irish delegation would prove disastrous Delayed by the civil war and Unionist non-cooperation the Boundary Commission finally convened in 1924 hampered from the get-go by Sinn Féin's naivety the intransigence of Ulster unionists and the duplicity of successive British governments It disbanded less than a year later without an inch gained for the twenty-six counties After 1925 the nationalist community in the North had to accept that whether they liked it or not that they were citizens of Northern Ireland their trust in both British and Free State governments irrevocably damaged One hundred years on Cormac Moore illuminates the fascinating and infuriating story behind the Boundary Commission's momentous failure

Decolonization and Conflict Martin Thomas, Gareth Curless, 2017-06-15 Insurgency based irregular warfare typifies armed conflict in the post-Cold War age For some years now western and other governments have struggled to contend with ideologically driven guerrilla movements religiously inspired militias and systematic targeting of civilian populations Numerous conflicts of this type are rooted in experiences of empire breakdown Yet few multi-empire studies of decolonisation's violence exist *Decolonization and Conflict* brings together expertise on a variety of different cases to offer new perspectives on the colonial conflicts that engulfed Europe's empires after 1945 The contributors analyse multiple forms

of colonial counter insurgency from the military engagement of anti colonial movements to the forced removal of civilian populations and the application of new doctrines of psychological warfare Contributors to the collection also show how insurgencies their propaganda and methods of action were inherently transnational and inter connected The resulting study is a vital contribution to our understanding of contested decolonization It emphasises the global connections at work and reveals the contemporary resonances of both anti colonial insurgencies and the means devised to counter them It is essential reading for students and scholars of empire decolonization and asymmetric warfare Structural Transformation and Economic Development Banji Oyelaran-Oyeyinka,Kaushalesh Lal,2016-09-13 This book examines long term structural changes and the broad impact on economic development in regional comparative perspectives The book analyzes data across Africa Asia and Latin America It looks at key variables of productivity growth industrialization poverty urbanization and employment This book is concerned with understanding structural change dynamics and how it affects job creation living standards and the efficiency of productive cities through manufacturing productivity growth that benefits majority of citizens With empirical evidence from a selected number of developing countries including China India Brazil Nigeria and South Africa the book attempts to present the considerable structural changes of these countries over the last few decades It highlights that growth without the expected job creation is one of the distinct features of growth in emerging and developing countries It suggests that countries may well record economic growth whether through within sector productivity increase or through structural change but this may not necessarily lead to employment an important concern for long term development

Western Balkan Economies in Transition Reiner Osbild,Will Bartlett,2018-08-23 This book explores the economic and social development of the Western Balkan region a group of six countries that are potential candidates for EU membership It focuses on the key economic issues facing these countries including the challenge of promoting economic growth limiting public deficits and debt and fostering international trade relations Given the severe impact of the recent economic crisis on social welfare in the region it also investigates the nature and extent of social exclusion a factor likely to produce future political instabilities if not effectively addressed by a return to sustainable economic growth The contributions explore these issues in light of the major influence of EU policy instruments and advice which are currently guiding the economies along an accession trajectory to future EU membership *Making Cities Work for All Data and Actions for Inclusive Growth*

OECD,2016-10-13 This report provides ground breaking internationally comparable data on economic growth inequalities and well being at the city level in OECD countries and a framework for action to help national and local governments reorient policies towards more inclusive growth in cities **Vagrant Nation** Risa Lauren Goluboff,2016 In Vagrant Nation Risa

Goluboff has found a way to explain how the interaction between 1960s social movements and the courts fundamentally changed both American law and society writ large By look at the changing views regarding a minor type of crime vagrancy Goluboff shows how the courts were cast directly into the midst of the turmoil sweeping the nation **Human Rights and**

the Dark Side of Globalisation Thomas Gammeltoft-Hansen, Jens Vedsted-Hansen, 2016-12-08 This book examines the continued viability of international human rights law in the context of extraterritorialisation outsourcing and privatisation of law enforcement tasks New forms of state cooperation raise difficult questions about divided shared and joint responsibility under international human rights law This book brings together some of the most authoritative legal voices to provide an introduction to core issues such as state responsibility attribution and extraterritorial jurisdiction as well as up to date case studies of different transnational law enforcement issues It will interest students scholars and practitioners of IR human rights and public international law
