**The Delimitation of the Continental Shelf between Denmark, Germany and the Netherlands** Alex G. Oude Elferink,2014-01-09 Alex G Oude Elferink s detailed analysis of the negotiations between Denmark Germany and The Netherlands concerning the delimitation of their continental shelf in the North Sea makes use of the full range of government archives in these three States He looks at the role of international law in policy formulation and negotiations and explores the legal context political considerations and in particular oil interests which fed into these processes He also explains why the parties decided to submit their disputes to the International Court of Justice and looks at the preparation of their pleadings and litigation strategy before the Court The analysis shows how Denmark and The Netherlands were able to avoid the full impact of the implications of the Court s judgment by sidestepping legal arguments and insisting instead on political considerations

**Structural Transformation and Economic Development** Banji Oyelaran-Oyeyinka,Kaushalesh Lal,2016-09-13 This book examines long term structural changes and the broad impact on economic development in regional comparative perspectives The book analyzes data across Africa Asia and Latin America It looks at key variables of productivity growth industrialization poverty urbanization and employment This book is concerned with understanding structural change dynamics and how it affects job creation living standards and the efficiency of productive cities through manufacturing productivity growth that benefits

majority of citizens With empirical evidence from a selected number of developing countries including China India Brazil Nigeria and South Africa the book attempts to present the considerable structural changes of these countries over the last few decades It highlights that growth without the expected job creation is one of the distinct features of growth in emerging and developing countries It suggests that countries may well record economic growth whether through within sector productivity increase or through structural change but this may not necessarily lead to employment an important concern for long term development

*Land Abandoned to the Sea* Stuart Oliver,2021-04-08 Significant changes are affecting coastlines around the world due to economic pressures and climate change This book addresses the social cultural and political context of the process of managed coastal realignment the strategic abandonment of the coast as a means of coping with these changes With a specific focus on the Blackwater Estuary in Essex Stuart Oliver analyses the cultural and social implications of managed retreat and proposes managed realignment as a practical way in which society can rethink itself addressing the new realities of the environment and a move towards developing a more sustainable relationship with it

**Memorializing Pearl Harbor** Geoffrey M. White,2016-03-31 Memorializing Pearl Harbor examines the challenge of representing history at the site of the attack that brought America into World War II Analyzing moments in which history is re presented in commemorative events documentary films museum design and educational programming Geoffrey M White shows that the memorial to the Pearl Harbor bombing is not a fixed or singular institution Rather it has become a site in which many histories are performed validated and challenged In addition to valorizing military service and sacrifice the memorial has become a place where Japanese veterans have come to seek recognition and reconciliation where Japanese Americans have sought to correct narratives of racial mistrust and where Native Hawaiians have challenged their ongoing erasure from their own land Drawing on extended ethnographic fieldwork White maps these struggles onto larger controversies about public history museum practices and national memory

Core-Periphery Patterns across the European Union Adelaide Duarte,Gabriela Carmen Pascariu,2017-08-25 In this new work Pascariu and Duarte along with an international group of acclaimed scholars delve into key challenges currently facing the European Union They Analyze the effect of peripherality across the EU regions which will be of great interest to those countries and regions facing a process of integration

*The Populist Temptation* Barry Eichengreen,2018-05-03 Populism of the right and left has spread like wildfire throughout the world The impulse reached its apogee in the United States with the election of Trump but it was a force in Europe ever since the Great Recession sent the European economy into a prolonged tailspin In the simplest terms populism is a political ideology that vilifies economic and political elites and instead lionizes the people The people populists of all stripes contend need to retake power from the unaccountable elites who have left them powerless And typically populists distrust of elites shades into a catchall distrust of trained experts because of their perceived distance from and contempt for the people Another signature element of populist movements is faith in a savior who can not only speak directly to the people but also

serve as a vessel for the plain people's hopes and dreams. Going back to the 1890s a series of such saviors have come and gone in the US alone from William Jennings Bryan to Huey Long to finally Donald Trump. In *The Populist Temptation* the eminent economic historian Barry Eichengreen focuses on the global resurgence of populism today and places it in a deep context. Alternating between the present and earlier populist waves from modern history he argues that populists tend to thrive most in the wake of economic downturns when it is easy to convince the masses of elite malfeasance. Yet while there is more than a grain of truth that bankers, financiers and bought politicians are responsible for the mess, populists' own solutions tend to be simplistic and economically counterproductive. Moreover, by arguing that the ordinary people are at the mercy of extra-national forces beyond their control, international capital, immigrants, cosmopolitan globalists, populists often degenerate into demagoguery and xenophobia. There is no one solution to addressing the concerns that populists raise but Eichengreen argues that there is an obvious place to start: shoring up and improving the welfare state so that it is better able to act as a buffer for those who suffer most during economic slumps. For example, America's patchwork welfare state was not well equipped to deal with the economic fallout that attended globalization and the decline of manufacturing in America and that played no small part in Trump's victory. Lucidly explaining both the appeals and dangers of populism across history, this book is essential reading for anyone seeking to understand not just the populist phenomenon but more generally the lasting political fallout that follows in the wake of major economic crises.

**Land Fictions** D. Asher Ghertner, Robert W. Lake, 2021-03-15 *Land Fictions* explores the common storylines, narratives and tales of social betterment that justify and enact land as commodity. It interrogates global patterns of property formation, the dispossessions property markets enact and the popular movements to halt the growing waves of evictions and land grabs. This collection brings together original research on urban, rural and peri-urban India, rapidly urbanizing China and Southeast Asia, resource expropriation in Africa and Latin America and the neoliberal urban landscapes of North America and Europe. Through a variety of perspectives, *Land Fictions* finds resonances between local stories of land's fictional powers and global visions of landed property's imagined power to automatically create value and advance national development. Editors D. Asher Ghertner and Robert W. Lake unpack the dynamics of land commodification across a broad range of political, spatial and temporal settings, exposing its simultaneously contingent and collective nature. The essays advance understanding of the politics of land while also contributing to current debates on the intersections of local and global, urban and rural, and general and particular.

Contributors: Erik Harms, Michael Watts, Sai Balakrishnan, Brett Christophers, David Ferring, Sarah Knuth, Meghan Morris, Benjamin Teresa, Mi Shih, Michael Levien, Michael L. Dwyer, Heather Whiteside. *The Continuing Imperialism of Free Trade* Jo Grady, Chris Grocott, 2018-10-08 In 1953 John Gallagher and Ronald Robinson shook the foundations of imperial history with their essay *The Imperialism of Free Trade*. They reshaped how historians saw the British empire, focussing not on the red bits on the map and the wishes of policy makers in London but rather on British economic and political influence globally.

Expanding on this analysis this volume provides an examination of imperialism which brings the reader right up to the present This book offers an innovative assessment and analysis of the history and contemporary status of imperial control It does so in four parts examining the historical emergence and traditions of imperialism the relationships between the periphery and the metropolitan the role of supranational agencies in the extension of imperial control and how these connect to financialisation and international political economy The book provides a dynamic and unique perspective on imperialism by bringing together a range of contributors both established and up and coming scholars activists and those from industry from a wide range of disciplines and backgrounds In providing these authors a space to apply their insights this engaging volume sheds light on the practical implications of imperialism for the contemporary world With a broad chronological and geographical sweep this book provides theoretical and empirical engagements with the nature of imperialism and its effects upon societies It will be of great interest to a broad range of disciplines across the humanities and social sciences especially those working in History Politics and Management and Organisation Studies

**Dictators Without Borders** Alexander A. Cooley, John Heathershaw, 2017-02-07 A penetrating look into the unrecognized and unregulated links between autocratic regimes in Central Asia and centers of power and wealth throughout the West Weak corrupt and politically unstable the former Soviet republics of Kazakhstan Kyrgyzstan Tajikistan and Uzbekistan are dismissed as isolated and irrelevant to the outside world But are they This hard hitting book argues that Central Asia is in reality a globalization leader with extensive involvement in economics politics and security dynamics beyond its borders Yet Central Asia s international activities are mostly hidden from view with disturbing implications for world security Based on years of research and involvement in the region Alexander Cooley and John Heathershaw reveal how business networks elite bank accounts overseas courts third party brokers and Western lawyers connect Central Asia s supposedly isolated leaders with global power centers The authors also uncover widespread Western participation in money laundering bribery foreign lobbying by autocratic governments and the exploiting of legal loopholes within Central Asia Riveting and important this book exposes the global connections of a troubled region that must no longer be ignored

[Social Reproduction and the City](#) Simon Black, 2020-07-15 The transformation of child care after welfare reform in New York City and the struggle against that transformation is a largely untold story In the decade following welfare reform despite increases in child care funding there was little growth in New York s unionized center based child care system and no attempt to make this system more responsive to the needs of working mothers As the city delivered child care services on the cheap relying on non union home child care providers welfare rights organizations community legal clinics child care advocates low income community groups activist mothers and labor unions organized to demand fair solutions to the child care crisis that addressed poor single mothers need for quality affordable child care as well as child care providers need for decent work and pay Social Reproduction and the City tells this story linking welfare reform to feminist research and activism around the crisis of care social reproduction and the neoliberal city

At a theoretical level Simon Black's history of this era presents a feminist political economy of the urban welfare regime applying a social reproduction lens to processes of urban neoliberalization and an urban lens to feminist analyses of welfare state restructuring and resistance. Feminist political economy and feminist welfare state scholarship have not focused on the urban as a scale of analysis and critical approaches to urban neoliberalism often fail to address questions of social reproduction. To address these unexplored areas Black unpacks the urban as a contested site of welfare state restructuring and examines the escalating crisis in social reproduction. He lays bare the aftermath of the welfare to work agenda of the Giuliani administration in New York City on child care and the resistance to policies that deepened race class and gender inequities.

**One Nation Undecided** Peter H. Schuck, 2019-08-06 At a time of deep social and political division along comes a much needed book to steer us toward solutions to five very difficult national problems. There could be no better guide for this endeavor than Peter Schuck, one of the clearest and most thoughtful legal and policy scholars of this or any generation. Robert E. Litan, author of *Trillion Dollar Economists*.

**Variations on Sovereignty** Hannes Černý, Janis Grzybowski, 2023-05-24 This edited book explores diverse contestations and transformations of sovereignty around the world. Sovereignty plays a central role in modern political thought and practice but it also remains fundamentally contested. Depending on the context and perspective it seems either omnipresent or elusive, liberating or oppressive, fading or resilient. Indeed, if in recent decades sovereignty has been expected to wane, today it is back on the agenda not as the solid bedrock of modern international politics which it never was but as variations on a concept and institution that are ever contested and as a result constantly transforming. Bringing together perspectives from various disciplines including International Relations, IR, political theory, geography, law, and anthropology, this volume goes beyond debates over the resilience or decline of sovereignty to instead emphasize how precisely the inherent ambiguities, tensions, and contestations in scholarship and practice spark sovereignty's manifold transformations. Offers three theoretical chapters that examine the illusions, contradictions, transformation, and lasting appeal of sovereignty and the nation state. Explores sovereignty from various disciplinary perspectives in 11 empirical chapters that highlight its role in different contexts around the world from the European Union, EU, to the South China Sea, to Western Sahara, and Palestine. Problematises the interplay between theory and practice of statehood and sovereignty as in the perception of Northern Cyprus as a fake state, scholars' promotion of Kurdish statehood in Iraq, and studies affirming the Islamic State. This book will be of much interest to students of statehood, sovereignty, conflict studies, and International Relations. Chapters 8 of this book are available for free in Open Access at [www.taylorfrancis.com](http://www.taylorfrancis.com). Red, White, and Black Robert L. Woodson, Sr., 2021-05-11 In the rush to redefine the place of black Americans in contemporary society, many radical activists and academics have mounted a campaign to destroy traditional American history and replace it with a politicized version that few would recognize. According to the new radical orthodoxy, the United States was founded as

a racist nation and everything that has happened throughout our history must be viewed through the lens of the systemic oppression of black people Rejecting this false narrative a collection of the most prominent and respected black scholars and thinkers has come together to correct the record and tell the true story of black Americans in all its complexity diversity of experience and poignancy Collectively they paint a vivid picture of black people living the grand American experience however bumpy the road may be along the way But rather than a people apart blacks are woven into the united whole that makes this nation unique in history Featuring Essays by John Sibley Butler Jason D Hill Coleman Cruz Hughes John McWhorter Clarence Page Wilfred Reilly Shelby Steele Carol M Swain Dean Nelson Charles Love Rev Corey Brook Stephen L Harris Harold A Black Stephanie Deutsch Yaya J Fanusie Ian Rowe John Wood Jr Joshua Mitchell Robert Cherry Rev DeForest Black Soaries Jr

**A Global Idea** Mayssoun Sukarieh, 2023-08-15 A Global Idea outlines how youth as shown by the Arab Spring uprisings and subsequent state responses became a prominent social and political category during the first two decades of the twenty first century in the Middle East Drawing on ethnographic fieldwork interview data and textual analysis Mayssoun Sukarieh explains that the spread of youth as an important category is linked to the operation of a global youth development complex a diverse transnational network of state private sector civil society and international development aid organizations that worked through key urban areas such as Washington DC Amman and Dubai In its analysis of the arrival extension and embedding of the youth development complex in the Middle East during this period A Global Idea addresses a broader question that is of global and not just regional concern How are certain ideas that are central to the working and reproduction of global capitalism able to travel the world so that they are found virtually everywhere

**Western Balkan Economies in Transition** Reiner Osbild, Will Bartlett, 2018-08-23 This book explores the economic and social development of the Western Balkan region a group of six countries that are potential candidates for EU membership It focuses on the key economic issues facing these countries including the challenge of promoting economic growth limiting public deficits and debt and fostering international trade relations Given the severe impact of the recent economic crisis on social welfare in the region it also investigates the nature and extent of social exclusion a factor likely to produce future political instabilities if not effectively addressed by a return to sustainable economic growth The contributions explore these issues in light of the major influence of EU policy instruments and advice which are currently guiding the economies along an accession trajectory to future EU membership
