Inclusion in International Migration: Power, Resistance and Identity Armağan Teke Lloyd,2019-04-30 People on the move face new barriers in a globalizing world Some of these barriers are related with the rise of an increasingly security oriented approach towards international migrants Notwithstanding the forces of globalization states have maintained their monopoly power over whom to admit and whom to deny within their borders In other words they remain the sovereign

authority regulating the entry and exit of people. However, in recent years, a number of states have singled out international immigration as the greatest political and social threat to their cultural and national security. The securitization of immigration is founded upon the premise that the international movement of people represents an exceptional risk for the survival of the nation and this is often associated with terrorism, instability, and criminality. The securitization of immigration is also based on the idea that the traditional authority vested in states to regulate immigration is somehow insufficient and needs to be enhanced. These assumptions correspond with a real policy shift in some countries such as the United States, where the government is planning to spend approximately 23 Billion Dollars on border security and immigration enforcement in 2019 alone. This edited volume is an exploration of the global landscapes inhabited by refugees and labour migrants, although the focus is largely on the former. Despite the fact that most of the empirical studies are drawn from within Europe, the book also includes research on Nepal, Australia, the Middle East, and Japan in order to reveal the truly global dimensions of migration and the regimes governing this. Content: INTRODUCTION by Arman Teke Lloyd; PART A: Ideology and Governance of Migration; CHAPTER 1: Coming to Terms with Liberal Democracy by the Populist Radical Right Parties of Western Europe: Evidence from European Parliament Speeches over Minorities and Migration by Caner Tekin; CHAPTER 2: A Forest with many trees: Mapping migration governance and the dispersion of authority in Europe by Lisa Marie Borrelli, Rebecca Mavin, and Giorgia Trasciani; CHAPTER 3: Policing Migrants in Transit and Upon Arrival: The Bordering Tactic of Integration in Austria and Germany by Olivia Johnson; PART B: Regulations: Suspension of Human Rights; CHAPTER 4: Borders: Exception and Sovereignty: Australia's Migration Policies as Instruments of Suspension of Human Rights and International Obligations by Ana Carolina Macedo Abreu; CHAPTER 5: Power and Sandwiched Sovereignty: Nepali Migrant Workers in the Gulf Countries by Hari KC; CHAPTER 6: The Body and Embodied Experiences in the British Asylum System: Developing a Conceptual Perspective by Rebecca Mavin; CHAPTER 7: Eritrean Unaccompanied Refugee Minors in The Netherlands: Wellbeing and Health by Anna de Haan, Yudit Jacob, Trudy Mooren, and Winta Ghebreab; PART C: Migrants' Strategies and Identities; CHAPTER 8: Social Inclusion Processes for unaccompanied minors in the city of Palermo: Fostering Autonomy through a New Social Inclusion Model by Roberta Lo Bianco and Georgia Chondrou; CHAPTER 9: Urban Resistances and Migrant Activism: Challenging the Border Regime in Madrid City by Ana Santamarina and Almudena Cabezas; CHAPTER 10: RefConnect A Mobile Social Network for Refugees by Evdokia Kogia, Styliani Liberopoulou, Nikolaos Alamanos, Vasilis Pierros, and Christos Michalakelis; CHAPTER 11: Halo Halo: Nostalgia and Navigating Life for Overseas Filipino Workers (OFWs) in the Kingdom of Saudi Arabia by Simeon S. Magliveras. *Geographies of Mobility* Mei-Po Kwan, Tim Schwanen, 2018-10-11. This book seeks to bring together different philosophical, theoretical, and methodological approaches to the study of human mobility within the discipline of geography. With five thematic sections conceptualizing and analyzing mobility inequalities, mobility politics of mobility, decentering mobility, and qualifying abstraction, and 27 substantive chapters by leading researchers in the field, it

provides a comprehensive overview of the latest thinking about human mobility and related issues The contributors discuss mobility issues as diverse as everyday mobilities of young people migrants and refugees and sex workers the relationships between citizenship and mobility and the potential and pitfalls of big data for understanding mobility This coupled with a broad international focus means that Geographies of Mobility will not only encourage and enrich dialogue on a theme that is of major importance to varied geographic research communities but will also be of great interest to students and researchers across the wider social sciences This book was originally published as a special issue of Annals of the American Association of Geographers

Ice and Snow in the Cold War Julia Herzberg,Christian Kehrt,Franziska Torma,2018-10-19 The history of the Cold War has focused overwhelmingly on statecraft and military power an approach that has naturally placed Moscow and Washington center stage Meanwhile regions such as Alaska the polar landscapes and the cold areas of the Soviet periphery have received little attention However such environments were of no small importance during the Cold War in addition to their symbolic significance they also had direct implications for everything from military strategy to natural resource management Through histories of these extremely cold environments this volume makes a novel intervention in Cold War historiography one whose global and transnational approach undermines the simple opposition of East and West

Stuck at Home Yasmin Y. Ortiga,2025-05-27 The Philippines is among the most successful migrant sending nations in the world both lauded and critiqued for exporting its own citizens to a global labor market Yasmin Y Ortiga brings readers beyond this popular image to explore questions often overlooked What happens when workers who were encouraged to emigrate are suddenly unable to leave Stuck at Home examines how the Philippine state and its aspiring migrants negotiated the meaning of immobility amid the COVID 19 pandemic In this pioneering book Ortiga studies the narratives that emerged around two groups of Filipino workers nurses banned from leaving the country and cruise workers who returned home after COVID 19 shut down the travel industry Ortiga emphasizes the high stakes in telling the right story of immobility to a nation built around emigration one that provides a compelling rationale for who deserves to move and who can be forced to stay A gripping account of political interests frustrated dreams and an unprecedented crisis Stuck at Home reveals how migration governance is not only about regulating people s movement but also defining the meaning and implications of remaining in place

HC 369 - Devolution: The Next Five Years and Beyond Great Britain. Parliament. House of Commons. Communities and Local Government Committee,2016 The Government has announced a devolution revolution transferring powers and opportunities to local government through a series of devolution deals The Cities and Local Government Devolution Bill gives statutory authority to deals and enables some of the specific reforms the Government wishes to make such as introducing directly elected mayors for combined authorities This inquiry set out to examine the contents of the Bill and in particular whether Greater Manchester s deal is a model for other areas but its scope quickly widened to a review of the way in which devolution in England is proceeding The Committee has identified various aspects of the current approach that it

recommends are refined and improved The Committee has found a significant lack of public consultation and engagement at all stages in the devolution process The public should be engaged in the preparation of devolution proposals insofar as possible during the negotiations and once the results of a deal have begun to make an impact and communicated to throughout the process This is particularly the case for health devolution where the systems in place are complex changes are consequently more difficult to understand and the public's response is likely to be more emotional The Committee also believes that the Government's approach to devolution in practice has lacked rigour as to process there are no clear measurable objectives for devolution It suggests various ways in which proper process can be ensured

The Sanctuary City Domenic Vitiello, 2022-08-15 In The Sanctuary City Domenic Vitiello argues that sanctuary means much more than the limited protections offered by city governments or churches sheltering immigrants from deportation It is a wider set of protections and humanitarian support for vulnerable newcomers Sanctuary cities are the places where immigrants and their allies create safe spaces to rebuild lives and communities often through the work of social movements and community organizations or civil society Philadelphia has been an important center of sanctuary and reflects the growing diversity of American cities in recent decades One result of this diversity is that sanctuary means different things for different immigrant refugee and receiving communities Vitiello explores the migration settlement and local and transnational civil society of Central Americans Southeast Asians Liberians Arabs Mexicans and their allies in the region across the late twentieth and early twenty first centuries Together their experiences illuminate the diversity of immigrants and refugees in the United States and what is at stake for different people and for all of us in our immigration debates
