

TEXT C provides information about how to improve your sprinting skills.	
In ONE paragraph of between 70 - 80 words, write a summary on steps to get faster at sprinting.	
Note:	
1.	You are NOT required to give a title for the summary.
2.	You must write a fluent paragraph.
3.	Use your own words as far as possible.
4.	Indicate your word count at the end of your summary. You will be penalised for exceeding the maximum number of words or failing to indicate the number of words used.

STEPS TO GET FASTER AT SPRINTING	
1	You want to get faster? Who doesn't? Well, one of the main factors is form. Sprinting isn't exactly just a speed-up version of your regular form during an easy run or jog. The movement patterns of running and sprinting are different, sprinting is more explosive, to be precise. To supercharge your sprints, you will need to get the basics down first.
2	The harder you run, the more vital it is to warm up your muscles. Walk and easy run for five to 10 minutes, and include dynamic exercises or drills like high knees, or simply try this 5-minute warm-up routine.
3	Keep your torso upright, shoulders relaxed and away from your ears, and engage your core. You should also try to incorporate core-strengthening moves – think side planks with reach, legs down with scissors, and mountain climbers – into your workouts to help give you the power to push forward.
4	Land on your forefoot, and focus on pushing off from your toes to propel yourself forward and keeping your feet flexed upward toward your shins. Running softer and landing quieter might help reduce injury. Hold your arms in a bent position at 90 degrees, and drive your elbows backward to create momentum. Think like a cyclist and move your feet in a circular motion, raising your thighs up until they are parallel to the ground.
5	Long strides are energy wasters –focus on speed rather than distance as you sprint. You'll run faster and more efficiently by taking short, quick strides. Relax and sync your breathing to the rhythm of your feet. You'll reduce wasted energy from muscle tension. Follow these tips to improve your breathing while you run to help prevent possible injuries.

Assessment in Geographical Education: An International Perspective Theresa Bourke,Reece Mills,Rod

Lane,2022-02-27 In recent years there has been increased attention paid to the importance of assessment in Geographical Education the chosen subject for this book Assessment is an important tool for collecting information about student learning and for providing timely data to inform key stakeholders including students teachers parents and policymakers To be effective assessment needs to be valid reliable and fair Validity is about ensuring that we assess what we claim we are assessing Reliability is about measuring performance and understanding in a consistent way Without validity and reliability assessment is unlikely to provide equitable opportunities for students to demonstrate what they know and can do As geography educators it is therefore important that we identify the core concepts and skills in geography that we want students to master We need a clear understanding of what the progression of learning looks like for each concept and skill so we can develop fit for purpose assessments that track and improve student learning While there is a substantial literature on evidence based assessment in secondary school contexts research exploring best practice assessment in geography is rare This is a concern given the distinctive nature of geography and the important role of assessment in the learning process This scholarly collection seeks to address this issue by connecting research in educational assessment with the domain of geography The chapters are written by leading researchers in Geographical Education from across the globe These chapters provide examples of innovation through the collective voices of geography teacher educator scholars from across Australia USA South Korea Germany Switzerland and Singapore What unifies the work in this book is that each chapter focuses on a key feature of the discipline of geography providing scholarly examples of evidence based practices for assessing student s knowledge and skills Public Documents Nebraska,1913 **Primary Education** ,1908 *Idaho Bulletin of Education* Idaho. State Board of Education,1916 *School Management* Emerson Elbridge White,1893 This treatise is a presentation of the subject of school management from the standpoint of the author s experience observation and study Pains have been taken to be clear in the statement of principles and practical and suggestive in their applications A free use has been made of concrete illustrations in the service of understanding an abstract principle It is hoped that this treatise may satisfy the most thoughtful and experienced teachers and that it may be of special interest and profit to those of more limited professional training and experience **Joint Documents of the State of Michigan** Michigan,1882 **Birth Of My First Patent** R. Easwaran,2022-08-13 The author is the inventor of an apparatus for the helicopter He holds an International Patent Application and a Patent Grant Certificate from the Indian Patent Office The book describes how a humble hobby and inclination to do simple school projects helped the author get a Patent Grant for a novel invention Youngsters are the country s future This book attempts to motivate all its readers to discover the potential within themselves It is a good mixture of

technical sociological and philosophical insight This book is certain to be an eye opener for youngsters parents and educationists Secondary, Higher Secondary and Higher Education - Reference Book Prin. Dr. Jayshree A.

Airekar,2019-12-02 Explore Educational Progression Secondary to Higher Education by Dr Ananya Kapoor for a detailed examination of the seamless transition and challenges across secondary higher secondary and higher education levels
