Geography Paper1 Grade11 2013 Term4:

The Physical Geography and Geology of the Driftless Area Eric C. Carson, J. Elmo Rawling III, J. Michael

Daniels, John W. Attig, 2019-11-04 Over the course of his 43 year career James C Knox conducted seminal research on the geomorphology of the Driftless Area of southwestern Wisconsin His research covered wide ranging topics such as long term landscape evolution in the Driftless Area responses of floods to climate change since the last glaciation processes and timing of floodplain sediment deposition on both small streams and on the Mississippi River impacts of European settlement on the landscape and responses of stream systems to land use changes This volume presents the state of knowledge of the physical geography and geology of this unglaciated region in the otherwise glaciated Midwest with contributions written by Knox prior to his passing in 2012 and by a number of his former colleagues and graduate students *A University Education*

David Willetts, 2017-11-17 Universities have a crucial role in the modern world In England entrance to universities is by nationwide competition which means English universities have an exceptional influence on schools a striking theme of the book This important book first investigates the university as an institution and then tracks the individual on their journey to and through university In *A University Education* David Willetts presents a compelling case for the ongoing importance of the university both as one of the great institutions of modern society and as a transformational experience for the individual The book also makes illuminating comparisons with higher education in other countries especially the US and Germany Drawing on his experience as UK Minister for Universities and Science from 2010 to 2014 the author offers a powerful account of the value of higher education and the case for more expansion He covers controversial issues in which he was involved from access for disadvantaged students to the introduction of 9 000 fees The final section addresses some of the big questions for the future such as the relationship between universities and business especially in promoting innovation He argues that the two great contemporary trends of globalisation and technological innovation will both change the university significantly This is an authoritative account of English universities setting them for the first time in their new legal and regulatory framework **British Columbia's Borders in Globalization** Nicole Bates-Eamer, Helga Kristín

Hallgrímsdóttir, 2021-11-24 This book is a case study collection examining the influences and functions of British Columbia's BC borders in the 21st century *British Columbia's Borders in Globalization* examines bordering processes and the causes and effects of borders in the Cascadian region from the perspective of BC The chapters cover diverse topics including historical border disputes and cannabis culture and identity the governance of transboundary water flows migration and preclearance policies for goods and people and the emerging issue of online communities The case studies provide examples that highlight the simultaneous but contradictory trends regarding borders in BC while boundaries and bordering processes at the external borders shift away from the territorial boundary lines self-determination local politics and cultural identities re-inscribe internal boundaries and borders that are both virtual and real Moreover economic protectionism racial discourses and

xenophobic narratives driven by advances in technology reinforce the territorial dimensions of borders These case studies contribute to the literature challenging the notion that territorial borders are sufficient for understanding how borders function in BC and in a few instances they illustrate the nuanced ways in which borders or bordering processes are becoming detached from territory The chapters in this book were originally published as a special issue of the Journal of Borderlands Studies
