Geography Paper Memo Essay Questions 2013

Brent Wetters, Anthony Cushing

Geography Paper Memo Essay Questions 2013:

Matter of North Brent Wetters, Anthony Cushing, 2025-07-01 Documents and illuminates Glenn Gould's groundbreaking radio composition *The Idea of North*. *Matter of North* collects essays and source material related to Glenn Gould's landmark 1967 radio documentary *The Idea of North*. The most famous product other than his studio piano recordings of Gould's 1964 decision to abandon the concert stage for the recording studio, it combines Gould's interests in the contrapuntal by the simultaneous layering of speaking voices with philosophy and a life-long fascination with the Canadian Arctic. Because the documentary is a multivalent work, the contributors approach the documentary from unique perspectives: sociological, philosophical, music theoretical, ethnomusicological, each illuminating a salient aspect of the work. The source material section includes for the first time the complete interview responses by Gould's five participants along with other important documentation.

Travel, Travel Writing, and British Political Economy Brian P. Cooper, 2021-11-10 The book draws on the history of economics, literary theory, and the history of science to explore how European travelers like Alexander von Humboldt and their readers circa 1750-1850 adapted the work of British political economists such as Adam Smith to help organize their observations and in turn how political economists used travelers' observations in their own analyses. Cooper examines journals, letters, books, art, and critical reviews to cast in sharp relief questions raised about political economy by contemporaries over the status of facts and evidence, whether its principles admitted of universal application, and the determination of wealth, value, and happiness in different societies. Travelers citing T. R. Malthus's population principle blurred the gendered boundaries between domestic economy and British political economy as embodied in the idealized subjects domestic woman and economic man. The book opens new realms in the histories of science in its analyses of debates about gender in social scientific observation. Maria Edgeworth, Maria Graham, and Harriet Martineau observe a role associated with women and methodically interpret what they observe, an act reserved in theory by men.

The Populist Temptation Barry Eichengreen, 2018-05-03 Populism of the right and left has spread like wildfire throughout the world. The impulse reached its apogee in the United States with the election of Trump, but it was a force in Europe ever since the Great Recession sent the European economy into a prolonged tailspin. In the simplest terms, populism is a political ideology that vilifies economic and political elites and instead lionizes the people. The people populists of all stripes contend need to retake power from the unaccountable elites who have left them powerless. And typically, populists' distrust of elites shades into a catchall distrust of trained experts because of their perceived distance from and contempt for the people. Another signature element of populist movements is faith in a savior who can not only speak directly to the people but also serve as a vessel for the plain people's hopes and dreams. Going back to the 1890s, a series of such saviors have come and gone in the US alone, from William Jennings Bryan to Huey Long to finally Donald Trump. In *The Populist Temptation*, the eminent economic historian Barry Eichengreen focuses on the global resurgence of populism today and places it in a deep context. Alternating between the

present and earlier populist waves from modern history he argues that populists tend to thrive most in the wake of economic downturns when it is easy to convince the masses of elite malfeasance Yet while there is more than a grain of truth that bankers financiers and bought politicians are responsible for the mess populists own solutions tend to be simplistic and economically counterproductive Moreover by arguing that the ordinary people are at the mercy of extra national forces beyond their control international capital immigrants cosmopolitan globalists populists often degenerate into demagoguery and xenophobia There is no one solution to addressing the concerns that populists raise but Eichengreen argues that there is an obvious place to start shoring up and improving the welfare state so that it is better able to act as a buffer for those who suffer most during economic slumps For example America s patchwork welfare state was not well equipped to deal with the economic fallout that attended globalization and the decline of manufacturing in America and that played no small part in Trump s victory Lucidly explaining both the appeals and dangers of populism across history this book is essential reading for anyone seeking to understand not just the populist phenomenon but more generally the lasting political fallout that follows in the wake of major economic crises India China L.H.M. Ling,Adriana Erthal Abdenur,Payal Banerjee,Nimmi

Kurian,Mahendra P. Lama,Li Bo,2021-03-11 Challenging the Westphalian view of international relations which focuses on the sovereignty of states and the inevitable potential for conflict the authors from the Borderlands Study Group reconceive borders as capillaries enabling the flow of material cultural and social benefits through local communities nation states and entire regions By emphasizing local agency and regional interdependencies this metaphor reconfigures current narratives about the China India border and opens a new perspective on the long history of the Silk Roads the modern BCIM Initiative and dam construction along the Nu River in China and the Teesta River in India Together the authors show that positive interaction among people on both sides of a border generates larger cross border communities which can pressure for cooperation and development India China offers the hope that people divided by arbitrary geo political boundaries can circumvent race gender class religion and other social barriers to form more inclusive institutions and forms of governance

Sustainable Peace in Northeast Asia Yong-Shik Lee,2023-09-05 Sustainable Peace in Northeast Asia examines the causes of lasting and complex tensions in the region from underlying political historical military and economic perspectives discusses their historical development and political economic implications for the world and explores possible solutions to build lasting peace The book is unique in that it approaches the topic from the historical perspective of each constituent country in the region Major global powers such as the United States and Russia have also closely engaged in the political and economic affairs of this region through a network of alliances diplomacy trade and investment The book also discusses the influence of these external powers over the crisis their political and economic objectives in the region their strategies and the dynamics that their engagement has created Both South Korea and North Korea have sought reunification of the Korean peninsula which will have a substantial impact on the region The book examines its justification feasibility and effects for the

region The book discusses the role of Mongolia in the context of the power dynamics in Northeast Asia A relatively small country in terms of its population Mongolia has rarely been examined in this context Sustainable Peace in Northeast Asia makes a fresh assessment of its potential role

Drawing Futures Bob Sheil,Frédéric Migayrou,Luke Pearson,Laura Allen,2016-11-11 Drawing Futures brings together international designers and artists for speculations in contemporary drawing for art and architecture Despite numerous developments in technological manufacture and computational design that provide new grounds for designers the act of drawing still plays a central role as a vehicle for speculation There is a rich and long history of drawing tied to innovations in technology as well as to revolutions in our philosophical understanding of the world In reflection of a society now underpinned by computational networks and interfaces allowing hitherto unprecedented views of the world the changing status of the drawing and its representation as a political act demands a platform for reflection and innovation Drawing Futures will present a compendium of projects writings and interviews that critically reassess the act of drawing and where its future may lie Drawing Futures focuses on the discussion of how the field of drawing may expand synchronously alongside technological and computational developments The book coincides with an international conference of the same name taking place at The Bartlett School of Architecture UCL in November 2016 Bringing together practitioners from many creative fields the book discusses how drawing is changing in relation to new technologies for the production and dissemination of ideas
