De Blij, 2015 **New Directions in Agrarian Political Economy** Ryan Isakson, 2017-10-02 How relevant are the classic theories of agrarian change in the contemporary context This volume explores this question by focusing upon the defining features of agrarian transformation in the 21st century the financialization of food and agriculture the blurring of rural and urban livelihoods through migration and other economic activities forest transition climate change rural indebtedness the co evolution of social policy and moral economies and changing property relations Combined the eleven contributions to this collection provide a broad overview of agrarian studies over the past four decades and identify the contemporary frontiers of agrarian political economy In this path breaking collection the authors show how new iterations of long evident processes continue to catch peasants and smallholders in the crosshairs of crises and how many manage to face these challenges developing new sources and sites of livelihood production This volume was published as part one of the special double issue celebrating the 40th anniversary of the Journal of Peasant Studies **Territorial Disputes in the South China Sea** J. Huang, A. Billo, 2014-12-09 Heightened tensions in the South China Sea have raised serious concerns about the dangers of conflict in this region as a result of unresolved complex territorial disputes This volume offers detailed insights into a range of country perspectives addressing the historical legal structural regional and multilateral dimensions of these disputes Cultures and Disasters Fred Krüger, Greg Bankoff, Terry Cannon, Benedikt Orłowski, E. Lisa F. Schipper, 2015-04-24 Why did the people of the Zambesi Delta affected by severe flooding return early to their homes or even choose to not evacuate How is the forced resettlement of small scale farmers living along the foothills of an active volcano on the Philippines impacting on their day to day livelihood routines Making sense of such questions and observations is only possible by understanding how the decision making of societies at risk is embedded in culture and how intervention measures acknowledge or neglect cultural settings The social construction of risk is being given increasing priority in understand how people experience and prioritize hazards in their own lives and how vulnerability can be reduced and resilience increased at a local level Culture and Disasters adopts an interdisciplinary approach to explore this cultural dimension of disaster with contributions from leading international experts within the field Section I provides discussion of theoretical considerations and practical research to better understand the important of culture in hazards and disasters Culture can be interpreted widely with many different perspectives this enables us to critically consider the cultural boundedness of research itself as well as the complexities of incorporating various interpretations into DRR If culture is omitted related issues of adaptation coping intervention knowledge and power relations cannot be fully grasped Section II explores what aspects of culture shape resilience How have people operationalized culture in every day life to establish DRR practice What constitutes a resilient culture and what role does culture play in a society s

decision making It is natural for people to seek refuge in tried and trust methods of disaster mitigation however culture and belief systems are constantly evolving How these coping strategies can be introduced into DRR therefore poses a challenging question Finally Section III examines the effectiveness of key scientific frameworks for understanding the role of culture in disaster risk reduction and management DRR includes a range of norms and breaking these through an understanding of cultural will challenge established theoretical and empirical frameworks **Adaptive Water Management** Farideh

Delavari Edalat,M. Reza Abdi,2017-09-05 This book explores a new framework of Adaptive Water Management AWM for evaluating existing approaches in urban water management It highlights the need to adopt multidisciplinary strategies in water management while providing an in depth understanding of institutional interactions amongst different water related sectors The key characteristics of AWM i e polycentric governance organisational flexibility and public participation are investigated and described through a critical review of the relevant literature The book presents an empirical case study undertaken in a selected developing country city to investigate the potential gaps between the current water management approaches and possible implementation of AWM Feasibility of AWM operations is examined in an environment surrounded by established water management structure with centralised governance and an institutional process based on technical flexibility The key elements of AWM performance are re structured and transformed into decision support systems Multi criteria decision models are developed to facilitate quantification and visualization of the elements derived from the case study which is involved with water companies and water consumers The book describes how the concept of AWM along with structuring suitable decision support systems can be developed and applied to developing country cities The book highlights the barriers for applying the AWM strategies that include established centralised decision making bureaucratic interactions with external organisations lack of organisational flexibility within the institutions and lack of recognition of public role in water management The findings outline that despite the lack of adaptability in the current water management in the case study as an example of developing countries there are positive attitudes among water professionals and the public towards adaptability through public institutional participation *Yojana* ,2014 *2025-26 All UPPSC General Studies Solved Papers* YCT Expert Team , 2025 26 All UPPSC General Studies Solved Papers 1000 995 E This book contains 396 sets of the Previous Year Solved Papers **Bpsc (Bihar Public Service Commission) General Studies Combined (Preliminary)**

Retail Location Planning in an Era of Multi-Channel Growth Mark Birkin,Graham Clarke,Martin Clarke,2017-03-27 The way in which products and services are delivered to consumers through branches and retail outlets or more generally through a network of distribution channels remains fundamentally important for maintaining a competitive advantage for a very wide range of businesses This is true within domestic markets but especially so for increasingly global corporations as shareholder pressure for continued growth drives businesses into ever more widespread geographical markets Arguing that more complex markets demand more sophisticated spatial analysis this book discusses the application of location planning techniques to generate competitive advantage in a variety of business sectors in a changing retail environment The series of techniques are analysed from relatively straightforward branch scorecards to sophisticated applications of geographical information systems GIS spatial modelling and mathematical optimisation Also explored are the changing dynamics of the impact of more restrictive planning environments in many countries on how retailers find new locations for growth and respond to changing consumer needs and wants The book is essential reading for students and scholars alike working in geography economics business management planning finance and industry studies **Supporting Shrinkage** Michael P. Johnson,Justin B. Hollander,Eliza W. Kinsey,George R. Chichirau,2021-08-01 Supporting Shrinkage describes a new approach to citizen engaged community focused planning methods and technologies for cities and regions facing decline disinvestment shrinkage and social and physical distress The volume evaluates the benefits and costs of a wide range of analytic approaches for designing policy and planning interventions for shrinking cities and distressed communities These include

collaborative planning social media civic technology game design analytics decision modeling and decision support and spatial analysis The authors present case studies of three US cities addressing shrinkage and decline with a focus on issues of social justice democratization of knowledge and local empowerment Proposed as a solution is an approach that puts community engagement and empowerment at the center combined with data and technology innovations The authors argue that decisions informed by qualitative and quantitative data and analytic methods implemented through accessible and affordable technologies and based on notions of social impact and social justice can enable residents to play a leading role in the positive transformation of shrinking cities and distressed communities Waterfronts Revisited Heleni

Porfyriou, Marichela Sepe, 2016-08-05 *Waterfronts Revisited* addresses the historical evolution of the relationship between port and city and re-examines waterfront development by looking at the urban territory and historical city in their complexity and entirety By identifying guiding values urban patterns and typologies and local needs and experiences cities can break the isolation of the harbor by reconnecting it to the urban structure its functions spaces and forms Using the UNESCO recommendation for the Historic Urban Landscape as the guiding concept and a tool for managing urban preservation and change this collection of essays illustrates solutions to issues of globalisation commercialization of space and commoditisation of culture in waterfront development Through sixteen selected case studies Editors Heleni Porfyriou and Marichela Sepe offer planners and urban designers a broad spectrum of alternative solutions to waterfront regeneration interventions and redevelopments addressing sustainability regional cultural diversity and the debate between conservation and transformation **Neoliberal Urban Policy and the Transformation of the City** A. MacLaren, S. Kelly, Andrew

MacLaran, 2014-08-12 This book reviews the character and impacts of actually existing neoliberalism in Ireland It examines the property development boom and its legacy the impacts of neoliberal urban policy in reshaping the city public resistance to the new urban policy and highlights salient points to be drawn from the Irish experience of neoliberalism *The Origins of Inequality* Joseph E. Stiglitz, 2025-04-03 Joseph E Stiglitz has had a remarkable career He is a brilliant academic capped by sharing the Nobel Memorial Prize in Economics and the Nobel Peace Prize and honorary degrees from Harvard Cambridge Oxford and more than fifty other universities and elected not only to the National Academy of Sciences and the American Academy of Arts and Letters but the Royal Society and the British Academy a public servant who served as Chair of President Clinton's Council of Economic Advisors and Chief Economist and Senior Vice President of the World Bank headed international commissions for the UN and France and was awarded the French Legion of Honor and Australia's Sydney Peace Prize a public intellectual whose numerous books on vital topics have been best sellers What brought him to economics were his concerns about the inequality and discrimination he saw growing up Wanting to understand what drives it and what can be done about it has been his lifelong passion This book gathers together and extends to new frontiers this lifelong work drawing upon the challenges and insights of each of these phases of his career In a still very widely cited paper written fifty

years ago Stiglitz set forth the fundamental framework for analyzing intergenerational transfer of wealth and advantage which plays a central role in persistent inequality That and subsequent work developed most fully here for the first time described today s inequality as a result of centrifugal forces increasing inequality and centripetal forces reducing it In recent decades the centrifugal forces have strengthened the centripetal forces weakened His general theory provides a framework for understanding the marked growth in inequality in recent decades and for devising policies to reduce it A central message is that ever increasing inequality is not inevitable Inequality is in a fundamental sense a choice Stiglitz explains that inequality does not largely arise from differences in savings rates between capitalists and others though that may play a role as Piketty Marx and Kaldor suggest but rather it originates importantly from the rules of the game which have weakened the bargaining power of workers as they have increased the market power of corporations He also explains how monetary authorities have contributed to increasing wealth inequality and how unless something is done about it likely changes in technology such as AI and robotization will make matters worse He describes policies that can simultaneously reduce inequality and improve economic performance

Demography for Planning and Policy: Australian Case Studies Tom Wilson,Elin Charles-Edwards,Martin Bell,2015-11-25 This edited collection shows how demographic analysis plays a pivotal role in planning policy and funding decisions in Australia Drawing on the latest demographic data and methods these case studies in applied demography demonstrate that population dynamics underpin the full spectrum of contemporary social economic and political issues The contributors harness a range of demographic statistics and develop innovative techniques demonstrating how population dynamics influence issues such as electoral representation the distribution of government funding metropolitan and local planning the provision of aged housing rural depopulation coastal growth ethnic diversity and the well being of Australia s Indigenous community Moving beyond simple statistics the case studies show that demographic methods and models offer crucial insights into contemporary problems and provide essential perspectives to aid efficiency equity in public policy and private sector planning Together the volume represents essential reading for students across the social sciences as for policy makers in government and private industry

Crowdfunding and Entrepreneurial Finance Richard Harrison,2017-10-02 An increase in the restrictions on the availability of funding for new and growing businesses in the aftermath of the global financial crisis has been accompanied by the emergence and growth of crowdfunding as an alternative method of raising capital Crowdfunding contributes towards the disintermediation of the finance market as funders and promoters are brought together directly democratising both fundraising by businesses and investment by individuals This book extends entrepreneurial finance research to the study of crowdfunding Contributions review the history status and future of crowdfunding analyse the patterns of fundraising assess the potential of crowdfunding for the financing of social ventures in particular and discuss the regulatory implications of recent developments What is clear from this collection is that the crowdfunding space is still evolving institutional forms are still developing as models are refined new

institutional collaborations e.g. between equity platforms and business angel networks are emerging and new challenges particularly regulatory challenges are being encountered While crowdfunding is not a universal solution for SME finance in a post crisis financial landscape it remains too early to determine whether crowdfunding represents a large scale transformation of the early stage risk capital market or a minor addition to it This book was originally published as a special issue of *Venture Capital*

Carceral Worlds Hanneke Stuit, Jennifer Turner, Julianne Weegels, 2024-07-25 We live a world in which the number of prisons is growing and experiences of incarceration are increasingly widespread *Carceral Worlds* offers a necessary and timely contribution to understanding these carceral realities of the globalized present The book asks how the carceral has become so central in life how it manifests in different geographical locations and finally what the likely consequences are of living in such a carceral world *Carceral Worlds* focuses on carceral practices experiences and imaginaries that reach far beyond traditional spaces of confinement It shows the lasting effects of colonial carceral heritage the influence of prison systems on city management and the entrapping nature of digital infrastructures It also discusses new urbanized forms of migrant detention the relation between prisons and homelessness the use of carceral metaphors in the everyday and the carceral implications of the uneven distribution of climate risk across the globe The volume brings together work from scholars across the world and from a variety of disciplines in the social sciences and humanities offering a fresh approach to the carceral as a central vector in modern life

Knowledge and the City Francisco Javier Carrillo, Tan Yigitcanlar, Blanca García, Antti Lönnqvist, 2014-08-01 This book underlines the growing importance of knowledge for the competitiveness of cities and their regions Examining the role of knowledge in its economic socio cultural spatial and institutional forms for urban and regional development identifying the preconditions for innovative use of urban and regional knowledge assets and resources and developing new methods to evaluate the performance and potential of knowledge based urban and regional development the book provides an in depth and comprehensive understanding of both theoretical and practical aspects of knowledge based development and its implications and prospects for cities and regions

Muslim Fashion Reina Lewis, 2015-10-15 In the shops of London's Oxford Street girls wear patterned scarves over their hair as they cluster around makeup counters Alongside them hip twenty somethings style their head wraps in high black topknots to match their black boot cut trousers Participating in the world of popular mainstream fashion often thought to be the domain of the West these young Muslim women are part of an emergent cross faith transnational youth subculture of modest fashion In treating hijab and other forms of modest clothing as fashion Reina Lewis counters the overuse of images of veiled women as evidence in the prevalent suggestion that Muslims and Islam are incompatible with Western modernity *Muslim Fashion* contextualizes modest wardrobe styling within Islamic and global consumer cultures interviewing key players including designers bloggers shoppers store clerks and shop owners Focusing on Britain North America and Turkey Lewis provides insights into the ways young Muslim women use multiple fashion systems to negotiate religion identity and ethnicity
