## The Vietnam War, 1954–1975

### Lesson 2 Vietnam Divides the Nation

#### Review Questions: Outlining

**DIRECTIONS:** Read the lesson and complete the outline below. Refer to your textbook to fill in the blanks.

#### I. The Antiwar Movement Emerges

- A. As the Vietnam War dragged on, support waned because many believed that the Johnson administration was not telling the truth about the war.
- B. Many Americans believed a credibility gap existed because of inconsistencies between what was shown by media and what the administration said about the war.
- C. Students and teachers at universities held teach-ins to explain why they opposed the war, while many protesters focused on what they thought was an unfair draft system. Most of the soldiers were working-class and minority youths.
- D. As the war went on, many young men burned their draft cards while an estimated 500,000 refused to go.

Many soldiers argued that if they were old enough to fight, they were old enough to

vote. The 26th amendment gave 18-year-olds the

- a. right to vote in federal and state elections, supported the war and opposed the war.

#### II. 1968: The Peace Year

- A. Senator Eugene McCarthy opposed the war and South Vietnamese lost the Tet Offensive. This attack, called the Tet Offensive, was reported. Americans, however, were warned that an enemy was about to launch a large-scale attack.

On March 25, 1968, Johnson declared the nation with the announcement that

he would not seek reelection.

His announcement marked the nation entering a new era.

- B. Bobby Kennedy was appointed to be in the lead for the Democratic Party's nomination for president.

- C. In the presidential election of 1968, Republican candidate Richard Nixon was elected because he promised to bring peace and order to the country.

This study guide will guide group members through video discussion for all 30 sessions as well as help individuals grow through in-between sessions assignments.

**Critical Care Study Guide** Gerard J. Criner, Gilbert E. D'Alonzo, 2013-03-09 Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states requiring extensive knowledge and clinical acumen are commonly found. Caring for critically ill patients requires an extensive knowledge of basic pathophysiology as well as awareness of the appropriate diagnostic tests and therapeutic interventions. Because this knowledge base crosses many different disciplines, introduction to caring for the intensive care patient while exciting may also be intimidating. This textbook is designed toward making the dynamic environment of the critical care unit understandable and the approach to the patient both logical and successful. The book contains three components: 1) description of the procedural tasks commonly performed for the critically ill patient; 2) explanation of the most common pathophysiologic states encountered; and 3) description of specific disease entities with details of their differential diagnosis, diagnostic strategy, and therapeutic plan. This book also uses several educational approaches that we have found useful in our own teaching sessions and prior textbooks. Clinical cases introduce chapters and highlight chapter segments to emphasize clinical relevancy. As an additional study aid, margin notes highlight important teaching points and facilitate easy review of chapter content. To consolidate the principles outlined in each chapter, review questions with full text explanations are provided at the end of each chapter. All these elements help reinforce the most important messages for the reader.

**Study Guide for Today's Medical Assistant** Kathy Bonewit-West, Sue Hunt, Edith Applegate, MS, 2012-10 Chapter assignment tables at the beginning of chapters guide you through textbook and study guide assignments and make it easy to track your progress. reviewing and mastering new vocabulary Evaluation of Learning questions let you assess your understanding evaluate progress and prepare for the certification examination Critical thinking activities let you apply your knowledge to real life situations Practice for Competency sections offer extra practice on clinical skills presented in the book Evaluation of Competency checklists evaluate your performance versus stated objectives and updated CAAHEP performance standards Updated content includes exercises for topics such as electronic medical records advanced directives HIPAA emergency preparedness ICD 10 coding documentation medical office technology medical asepsis vital signs pediatrics colonoscopy IV therapy and CLIA waived tests New activities provide practice for the Today s Medical Assistant textbook s newest and most up to date content New Emergency Protective Practices for the Medical Office chapter includes procedures critical thinking questions and other activities to help you understand emergency preparedness New Wheelchair Transfer Procedure and Evaluation of Competency checklist includes a step by step guide to this important procedure New video evaluation worksheets on the Evolve companion website reinforce the procedures demonstrated on the textbook DVDs New practicum and externship activities on Evolve provide practice with real world scenarios

### **Primary English Curriculum Guide**

Christine Moorcroft,Ray Barker,2013-11-26 First Published in 2001 The purpose of this curriculum guide is to help student teachers and newly qualified teachers to make a start on learning how to become competent teachers of English Despite the emphasis given in training courses to the teaching of English newly qualified teachers often feel underprepared for it and frequently mention their concerns about this These concerns can be partly explained by a general lack of confidence in this key area and partly by widespread media and political criticism of the teaching of literacy It is also because it is often difficult for a student to make the connection between observation of key teaching strategies and his or her own personal practice
