Managing Mathematical Projects - with Success! P.P.G. Dyke, 2006-04-29 The first student centred guide on how to write projects and case studies in mathematics with particular attention given to working in groups something maths undergraduates have not traditionally done With half of all universities in the UK including major project work of significant importance this book will be essential reading for all students on the second or final year of a mathematics degree or on courses with a high mathematical content for example physics and engineering

Federal Register, 2013-10 **Information Literacy as a**

Student Learning Outcome Laura Saunders,2011-06-29 This nationwide analysis documents how institutions of higher education are responding to demands for accountability and transparency by implementing and assessing learning goals for information literacy Stakeholders in higher education across the country including students parents research and policy organizations and government agencies are demanding greater accountability and transparency from institutions in how they are promoting quality and improvement in colleges and universities Indeed as the cost of tuition rises colleges and universities as well as the organizations which accredit them are coming under increased scrutiny Logically student learning outcomes assessment and accreditation are all constantly under the magnifying glass Information Literacy as a Student Learning Outcome The Perspective of Institutional Accreditation fills a gap in the current literature by inspecting how institutions nationwide are fulfilling accreditation standards in the area of information literacy While the bulk of the book looks at institutions accredited by the Middle States Commission on Higher Education all six of the regional accreditation areas are addressed The author also conducted campus visits and interviews at selected institutions in order to provide a more in depth analysis of these institutions programs for information literacy
