Part 1: Diagnostics

- ☐ Take the Pre-diagnostics for all subjects:

- ☐ Math
- ☐ Grammar

- ☐ Biology
- ☐ Reading
- ☐ Anatomy & Physiology (AAP)

- ☐ Review your results:

For topics where you scored well, check those areas and only make additional practice that you are doing at your own pace.

For topics where you scored low, focus your attention on those topics and make them one of the main topics to study throughout the month leading up to your exam.

For topics where you scored well, you should focus on the diagnostic results, if you score 80% or above on a topic, it is not your main focus. However, you can use that skill to your advantage if you have time to spare.

You can also use topics where you scored lower on the diagnostic to focus on in your study plan, as that is the area you need to focus on.
