Lorimer, Charles W. J. Withers, 2015-12-14 Volume thirty one of Geographers Biobibliographical Studies brings together nine essays on leading geographers and their work With its publication the cumulative record of geographers lives and works in GBS exceeds 460 essays Here the editors bring forward critical appraisals of six French geographers and so illustrate the rich traditions of geographical scholarship in that country of a leading Portuguese figure a Briton who played a major role in establishing geography in modern New Zealand and a British woman who pioneered connections between the history of geography in practice and the histories of science and technology Geographers lives and geography s making is wonderfully illuminated in international national and cross disciplinary context **Travels Into Print** Innes M. Keighren, Charles W. J.

Withers, Bill Bell, 2015-05-11 The Age of Exploration and Discovery may well have started in the 15th century but for the British the 19th century saw the rise of the British Empire and an explosion in world travel The travel narratives written during this century were profuse and by some estimates more travel narratives were written during the first half of the 19th century than in all preceding centuries These accounts tell of wondrous zoological and botanical finds of topography never before imagined and of exotic peoples as well At the time there was one publisher John Murray known for its utter domination of the travel narrative field The caliber and profile of their list was known throughout the UK and Europe and into the US as well The authors of the house included Jane Austen Lord Byron Washington Irving and Sir Walter Scott And in its list of travel writing and exploration the house boasted the authors Charles Darwin and Charles Lyell Murray s name became

as synonymous with travel writing and exploration as it was with literary giants *Travels into Print* is a tour through the archives and files of the House of Murray and marvelous expedition in the geography of travel and exploration writing knowledge and reception in the 19th century Rather than focusing on narratives of a particular region or scientific area of interest or particular period the work uses a source that cuts across all of these areas the publisher Steeped in book files and correspondence about edits and revisions sent between Murray and his staff and explorers the book addresses the ways in which the texts were written the role of truth in the accounts correspondence as a form of production and the writings as travel documents This is a wonderful history of the book told from the perspective of a legendary book and author maker
