The Social Studies Curriculum, Fifth Edition E. Wayne Ross, 2024-09-01 The Social Studies Curriculum Fifth Edition updates the definitive overview of the issues teachers face when creating learning experiences for students in social studies. Renowned for connecting diverse elements of the social studies curriculum from history to cultural studies to contemporary social issues, the book offers a unique and critical perspective that continues to separate it from other texts. The social studies curriculum is contested terrain both epistemologically and politically. Completely updated and revised, the fifth edition includes fourteen new chapters and covers the politics of the social studies curriculum, questions of historical perspective, Black education and critical race theory, whiteness and anti-racism, decolonial literacy and decolonizing the curriculum, gender and sexuality, Islamophobia, critical media literacy, evil in social studies, economics education, anarchism, children's rights, and Earth democracy and citizenship education. Readers are encouraged to reconsider their assumptions and understandings of the purposes, nature, and possibilities of the social studies curriculum. Secondary History in Action Catherine Priggs, Hugh Richards, David Hibbert, Elizabeth Carr, 2025-06-06 Drawing on over 60 years combined experience of history teaching and history curriculum leadership, Carr, Hibbert, Priggs, and Richards explore ways to make history memorable, engage students in historical thinking, and secure excellent outcomes for all. Their perspective is grounded in history's disciplinary distinctiveness and a vision for its purpose in students' education. The authors of *Secondary History in Action* articulate practical approaches to history curriculum design, ways to teach disciplinary history in the classroom, and methods to assess students' knowledge and understanding. They draw together recent research and established traditions in history teaching discourse in a coherent summary that will be helpful to trainee and beginning teachers, non-specialist teachers of history, subject leaders, and senior leaders managing history departments. **Elementary and Middle School Social Studies** Pamela J. Geschichte in heutigen Gesellschaften A History of Literacy Education Robert J. Tierney, P. David Pearson, 2021 In this volume two notable scholars trace the monumental shifts in theory research and practice related to reading education and literacy with particular attention to what they consider the central goal of literacy making meaning Each section describes a specific epoch including a brief snapshot of how the reader of that period is envisioned and characterized by researchers and teachers as well as a deep discussion of the ideas and contextual events of that era These developmental waves are organized in rough historical sequence by a series of shifts in underlying theoretical and scholarly lenses from the behavioral to the psycholinguistic to the cognitive to the sociocultural to the critical to the multimodal to the global The book closes with a discussion of the various research frames and methodological approaches that paralleled these developments Throughout there is a profound recognition that all research and practice are ultimately directed toward how students make meaning from sound to letter to word to ideas and images Book Features Animates some of the revolutionary developments related to reading education and literacy in modern times Each development is accompanied by a discussion of the aspirational reader that sets the stage for contemplating these shifts and their significance Traces the research and theoretical developments to illustrate the origins of the shifts and their influences Supported by a website with video lectures and conversations tied to the various waves of development **"Code of Massachusetts regulations, 2014"**, 2014 Archival snapshot of entire looseleaf Code of Massachusetts Regulations held by the Social Law Library of Massachusetts as of January 2020 **What Is Ancient History?** Walter Scheidel, 2025-04-22 From one of today's most innovative ancient historians a provocative new vision of why ancient history matters and why it needs to be told in a radically different global way It's easy to think that ancient history is well ancient history obsolete irrelevant unjustifiably focused on Greece and Rome and at risk of extinction In *What Is Ancient History* Walter Scheidel presents a compelling case for a new kind of ancient history a global history that captures antiquity's pivotal role as a decisive phase in human development one that provided the shared foundation of our world and continues to shape our lives today For Scheidel ancient history is when the earliest versions of today's ways of life were created and spread from farming mining and engineering to housing and transportation cities and government writing and belief systems Transforming the planet this process unfolded all over the world in Eurasia Africa and the Americas often at different times sometimes haltingly but ultimately unstoppably Yet it's rarely studied or taught that way Since the eighteenth century Western intellectuals have dismembered the ancient world driven not only by their quest for professional expertise but also by nationalism colonialism racism and the idealization of Greece and Rome Specialized scholarship has fractured into numerous academic niches obscuring broader patterns and dynamics and keeping us from understanding just how much humanity has long had in common The time has come Scheidel argues to put the ancient world back together by moving beyond the limitations of Greco-Roman classics by systematically comparing ancient societies and by exploring early exchanges and connections between them The time has come in other words for an ancient history for everyone **The**
